

Table of Contents

Preface

Chapter 1: Advanced Nanomaterials

Film Property Enhancement of Bacterial Nanocellulose Suspension Using High-Pressure Homogenization Parameters R. Lueangkrathok, K. Pacaphol and D. Aht-Ong	3
Strategic Development of Nanoemulsion Bases for Versatile Active Ingredient Incorporation S. Thepwatee, A. Pinket and S. Rangauthok	9
Synthesis of Iron-Doped Carbon Nanodots from Waste Expanded Polystyrene and its Application in Carbon Monoxide Gas Detection N.F.B. Vidal, E.A. Tolentino, F.J.F. Lacsá and R.V.D.C. Rubi	17
Tropine-Based Deep Eutectic Solvents (DES) Applied in the Alcoholysis of Polyethylene Terephthalate (PET) for Preparation of Nano Carbon Dots G.J. Zhou, C. Chen and S. Yao	25
Evaluation of Bismuth Oxide Nanoparticles (BiONPs) as a Potential Contrast Agent in Computed Tomography (CT) Imaging M.H.Z. Husri, S.M. Tajudin, J. Mohd Radzi, N.S. Mohamed, W.N. Wan Abdul Rahman, K.A. Razak and N.H. Mohd Zainudin	31
Stable and Tunable Photoluminescence Emission of Functionalized Carbon Dots for Heavy Metal Ion Detection G.G. Edilo and R.T. Candidato Jr.	39
Nanotechnology in Mechanical Engineering - A Review R.D.S. Kumar, L.H. Kumar, S.K. Jeeva Roshini, J. Varghese and L. Singh	47

Chapter 2: Sustainable Chemical Production

Green Synthesis of TiO₂ Nanoparticles Using Piper Longum Leaf Extract: Morphological, Optical and Antibacterial Characterization A.M.G. Shemona, S. Kanagaprabha, H. Johnson Jeyakumar and S.A. Vathana	73
Advancing Green Photonic Materials: L-Serine Doped Creatininium Benzene Sulphonate Single Crystals C. Ramajeya and K. Balasubramanian	89
Utilization Potential of Waste Bittern from Sea Brine, Subsoil Brine and Backwater Brine as Fertilizer for Amaranthus Tender A. Kumaresan, P. Krishna Kumar, J. Shanmugapriya and M. Al Khazaleh	103
An Amino Acid Based Crystals: Growth, Characterization and Applications T. Vela, S. Ramaswamy, J. Beryl Jancy and S. Sudharthini	113

Chapter 3: Alloys Corrosion

Engineering Corrosion-Resistant Microstructures in AZ31D Magnesium Alloy through Friction Stir Processing M.S. Patel, A. Rahaman, R.J. Immanuel, M.F. Khan, M.U. Kahaly and A.M. Nafeena	127
