Preface

Chapter 1: Advanced Composites and Polymers

Sustainable Monocoque Materials for Application in E-Scooter Chassis: Mechanical Properties of Highly Biodegradable Polymer Composites	
G. Constantinescu, A. Horovistiz, J.P. Santos and M.S. Henrique	3
Enhancing Copper-Graphene Composites for Sustainable Industry Applications	
M.A. Ahmad, N.I.M. Rasid, N. Muhamad, N.A.S. Feisal and N.H. Jamadon	9
Modeling the Pinch-Off Zone for the Handle of a Plastic Bottle via Extrusion Blow Molding Process: An Examination of Weld-Line Quality	
J. Phromjan and S. Sinbunluekul	15
Tensile Property Enhancement by Laying the Continuous Carbon Fiber during 3D Printing Process	
W. Rattanapreechachai, K. Chansoda and W. Chookaew	21
Semi-Analytical Solution of Post-Filling Stage in Vacuum Assisted Resin Infusion	
A. Ouezgan, M. Chahbouni, S. Boutahari, A. Saouab, A. Maziri, E.H. Mallil and J. Echaabi	27
Natural Rubber-Based Thermal Insulation Foams: Physical, Mechanical and Heat Insulation Properties	
S. Tuampoemsab, A. Rattanapan, P. Sapsrithong, T. Sritapunya, S. Wongmanee and T. Sopakitiboon	33
Effect of a Low Corn Silk Flour Loading in Polybutylene Succinate Biocomposites on Degradability under Soil Burial and Sunlight Exposure Conditions	
T. Sritapunya, A. Rattanapan, P. Sapsrithong and S. Tuampoemsab	41
Design and Development of Bi-Axial Testing Fixture	
N.H. Dang	49

Chapter 2: Structural Metals

The Effect of Solution Heat Treatment Temperature on The Hardness of AA6061 Alloy in The TIG Welding Process	
A. Azwinur, A. Akhyar, S. Syukran, M. Marzuki and A.S. Ismy	59
Evaluation of MIG Welding-Brazing Parameters for Joining Al 6061 and Mild Steel with Thin Intermetallic Layer (IMC)	
M.S.A. Ishak, A.N. Dagang, M.F. Abdul Kadir and S. Mamat	67
Improving Sliding Wear of AISI52100 Using Cellulose Microparticles Additive	
R. Kurniawan, Z. Fuadi, D. Rahmadiawan, M.A. Kalam and A. Maulinda	75

Chapter 3: Advanced Functional Materials for Electronics and Energy Applications

Investigation on EDLC in Aqueous Electrolyte for Application to Coin-Cell Type Storage Batteries	
S. Kobayashi, Y. Nishiyama and D. Tashima	85
Longitudinal Magnetic Field Effect and Influence of Anisotropy of B_{c2} in Critical Current Density of YBCO Superconducting Tape	
Y. Liu and B.R. Ni	93
Development of High Strength SiC Ceramics Reinforced by Beta Si_3N_4 Rod-Like Crystals	
N. Shinohara and M. Kitayama	103
Effect of Free Water on Polarization and Piezoelectric Coefficients of Cement-Based Piezoelectric Composites during Manufacturing Process	
Y.S. Cheng, H.H. Pan, J.L. Syue and H.C. Chiang	113
