

Table of Contents

Preface

Chapter 1: Composite Materials

BFRP Epoxy Composite's Impact Strength Enhancement by Hand Layup Method Addition of New Warmed Nano Clay Particles P. Dhiravidamani, P. Rajendran, S. Durai and T. Kandasamy	3
Improving Wear Resistance of Aluminium Alloy by Reinforcing TiB₂ & ZrO₂ M. Amarnath, A. Mohanraj, K. Gopalakrishnan, N. Logesh, P. Karthik and R. Elangovan	11
An Investigation to Enhance the Flexural Modulus of the Natural Fibre Composite Using Hemp Fibre Polymer Matrix S. Rahul, A. Mohanraj, M.N. Ahamadhu, A.M. Arafath, S.L. Mohanesh and S. Saran	19
Experimental Investigation of Mechanical Properties for Borassus Flabellifer and Carica Papaya Fiber Reinforced Polymer Hybrid Composites R. Palaniyappan, S. Theivasigamani, A. Balamurugan, V. Kaviyarasu, M. Ravikumar and B. Vignesh	35
Investigation on Mechanical Physicochemical Properties of Novel Natural Fiber from Bauhinia Racemosa and its Epoxy Composites S. Theivasigamani, S. Chinnappan, M. Bhuvaneshwaran, R. Bhuvaneshwaran, K. Ajay and K. Jagadeep	45

Chapter 2: Water Treatment

A Comprehensive Review of Organoclays and Bio-Adsorbents for Effective Copper Removal M. Bahouch, N. Hadoudi, A. El Yousfi, A. Salhi, M. Ghalit, H. Amhamdi and M. Ahari	57
Synthesis, Characterization, and Adsorption Properties of (CTAB)-Modified Bentonite for Water Contaminant Removal N. Hadoudi, A. Charki, M. Bahouch, A. El Yousfi, A. Salhi, F. Mourabit, H. Amhamdi and M. Ahari	71
Optimization of the Osmosis Process for the Potabilization of Wadi Oum Er-Rbia Water: Analysis of Hydraulic and Quality Parameters S. Es Sellami, T. Abdeslam, N. Es Sallak and S. Naamane	85

Chapter 3: Particle System Mechanics

Application of Information Technologies in Modeling Multi-Component Systems with Particles of Various Geometry V. Pasternak, A. Ruban, V. Popovych and M. Khramov	101
---	-----

Chapter 4: Building Materials

Strength Evaluation of Marine Soil Treated with Cockle Shell and Nano Silica via Consolidated Undrained Testing A.A. Harun, M.N. Ngah, M. Md Nujid and N. Md Nor	115
Correlation of Crack Width with Acoustic Emission Energy for Reinforced Concrete Beams Subjected to Cyclic Loading N. Md Nor, A. Saahal, S. Abdullah, M. Md Nujid and S.N. Mat Saliah	121
Maximizing Mechanical Performance: An RSM-Based Optimization of Bamboo Fiber and Wood Ash in Concrete K.D. Marcos and M.M.C. Rodriguez	127

Central Composite Design-Based Optimization of Burnt Clay Brick Durability Using Recycled Ceramic Tile Powder

K.D. Marcos, M.G. Calamba, A.J.J. Mores and M.M.C. Rodriguez

135
