

Table of Contents

Preface

Gelation, Vitrification and Shrinkage of Thermoset Polymers - Methods for Investigation and Modelling

P.L. Geiß and M. Schumann 1

Microstructural and Morphological Evolution of Novel *In Situ* Al-15%MgSi-4.5%Si Composite with Strontium Addition

M. Kadir and P. Das 7

Fabrication and Thermomechanical Processing of Titanium-Based Laminates for Enhanced Performance under High Dynamic Impact

S. Prikhodko, P.E. Markovsky and D.G. Savvakin 15

Phase Field Model of Modification of Microstructure of Al-15Mg₂Si- 4.5Si Composite by Addition of Sr during Semi-Solid Processing

I. Mukherjee and P. Das 23

Effect of Oxygen on Phase Evolution in Al-Y₂O₃ Nanocomposites by Mechanical Alloying

T. Sakamoto, Y. Jinno and H. Takebe 29

Microstructures and Properties of Diffusion Layer Formed at Laminated Interface of Alumina-Particle Dispersed Magnesium Laminated Compacts Fabricated by MM/SPS Method

S. Kawamori, Y. Nagai and H. Fujiwara 35

Mechanical and Thermal Properties of Harmonic Structure Composites with Ti-Ni Alloy and Copper

K. Miyauchi, M. Kawabata, T. Kuno, K. Ameyama and H. Fujiwara 41

Structure of Ta₂O₅ containing Phosphate Invert Glasses Prepared by Liquid Phase Method

H. Asano, M. Takahashi, A. Obata, M. Sakurai, F. Nagata and S. Lee 47

In-Situ Observation and Quantitative Evaluation of Dendritic Silver Precipitates Growth inside Borosilicate Glass Substrate

M. Kono, H. Kawamura, S. Matsusaka, S. Itoh and H. Hidai 53

Investigation of Degradation Behavior of Adhesion between Sealing Resin and Copper by Aging Treatment

A. Tozaki, T. Kobayashi, I. Shohji, H. Takenaka, H. Suzuki and M. Ueshima 59

Microstructures and Hardness of WC-Co and WC-HEA Cemented Carbides Additively Manufactured by the Multi-Beam Laser Directed Energy Deposition

T. Kunimine, W. Guo, K. Ebihara, Y. Yamashita and S. Yasui 65
