

Table of Contents

Preface

Damping in Composites

R.D. Adams 3

Magnetomechanical Damping and Related Phenomena

D.N. Beshers 17

Snoek Type Relaxations and Trapping of Hydrogen

G. Cannelli, R. Cantelli, F. Cordero and F. Trequattrini 29

On the Controversy about Grain Boundary Relaxation

B.J. Molinas and F. Povolo 39

Applications of the Coupling Model to Some Problems in Mechanical Spectroscopy of Metals

K.L. Ngai and L.B. Magalas 49

Computer Modeling of the Interactions of Dislocations with Point Defects in Regard to Internal Friction

T.O. Ogurtani 61

Fatigue and Internal Friction of FCC Metals

A. Vincent and R. Fougères 69

Isothermal Internal Friction Study of the Zener Relaxation in Cu-Al Single Crystals

S. Belamri, A. Rivière and J. Woirgard 83

Hopping Processes of Interstitials in FCC Binary Alloys and Models for Associated Anelastic Relaxations

A. Biscarini, B. Coluzzi and F.M. Mazzolai 89

Magnetic After-Effects in Microcrystalline Fe-Si Ribbons

W. Ciurzynska, J.W. Moron, J. Zbroszczyk, B. Wyslocki, S. Szymura, J. Rasek and Y. Yamashiro 95

Internal Friction Studies of Carbon-Carbon Interaction in Iron

G. Haneczok, M. Weller and J. Diehl 101

Hydrogen Relaxation Processes in Diluted Pd-Y Alloys

G. Hauptmann, W. Ulfert and H. Kronmüller 109

Low-Temperature Anomalies of Ultrasound and Velocity in High-Purity Niobium Single Crystals

P.P. Pal-Val, V.D. Natsik, H.-. Kaufmann and A.S. Sologubenko 117

High Temperature Relaxation in Aluminium Studied by Low Frequency Mechanical Spectroscopy

A. Rivière and J. Woirgard 125

Internal Friction Study of the Oxygen Snoek Relaxation in NbH_x (0

R. Schmidt and H. Wipf 133

Hydrogen-Induced Internal Friction in Amorphous and Crystalline Intermetallic Phases

H.R. Sinning 139

Internal Friction Measurement of 20 MeV Proton Irradiated Mo

H. Tanimoto, H. Mizubayashi, M. Nagasawa, S. Okuda and Y. Tagishi 145

Internal Friction Associated with Surface-Oxidation of Vanadium, Niobium and Tantalum

O. Yoshinari, H. Kakimoto and K. Tanaka 151

Effect of γ Irradiation on Dislocation Relaxation Peaks in Polycrystalline Molybdenum at 10 MHz Frequency

W.E. Alnaser, M. Zein and L.B. Magalas 159

Internal Friction Investigation of the γ -Peak Irreversibility in High Purity Tantalum and Niobium

G. D'Anna and W. Benoit 165

Bordoni Relaxation and Hydrogen in Deformed Pd Single Crystals

G. Hauptmann, W. Ulfert and H. Kronmüller 171

A New Internal Friction Peak and the Kink Pair Formation of Dislocations in Aluminum

T. Kosugi and T. Kino 177

Lubrication Agents of Dislocation Motion at Very Low Temperature in Cold-Worked and Irradiated Aluminium	
J. Lauzier, G. Gremaud and W. Benoit	183
Ultrasonic Attenuation and Modulus Defect Associated with the Bordoni Peak in Copper Single Crystals	
A.O. Moreno Gobbi and J.A. Eiras	189
The Relation between the Stacking Fault Energy and the Bordoni Relaxation in FCC Metals	
M.L. N�� and J. San Juan	195
Study of the Kink Dynamics in Lead by the Two-Wave Acoustic Coupling Method	
B. Quenet, I. Cuche, G. Gremaud and W. Benoit	201
Dislocation Relaxation Peaks in Molybdenum Single Crystals at Megahertz Frequencies	
M. Zein and W.E. Alnaser	207
Low Temperature Plastically Cycled Aluminium Studied by Means of the Ultrasonic Coupling Technique	
F. Charvieux, R. Foug��res and A. Vincent	215
Amplitude Dependent Internal Friction and Plasticity of Crystals	
B.K. Kardashev and S.P. Nikanorov	221
The Nature of the Low-Temperature Plasticity of Solids	
V.P. Kisel	227
On the Dislocation Motion and Multiplication under Successively Applied Compressive and Tensile Stresses	
V.P. Kisel	233
The Amplitude and Frequency Dependences of Amplitude-Dependent Internal Friction and Inelastic Strain in Alkali-Halide Crystals	
S.B. Kustov, S.N. Golyandin and B.K. Kardashev	239
The Temperature Dependences of Internal Friction and Yield Stress in Al Alloys	
A.B. Lebedev and V.I. Ivanov	245
Complex Analysis of Interaction between Dislocations and Pinning Points in Mo with Low Carbon Contents	
D.M. Levin and S.A. Golovin	251
The Influence of the Microstructure on the Anelastic Behaviour of 99.999% Aluminium	
M.L. N��, J. San Juan, J.I. P��rez-Landaz��bal and C. Esnouf	255
Dislocation Internal Friction in Silicon Bronze during and after Plastic Deformation	
S. Pilecki, P. Kopania, S.B. Kustov, B.K. Kardashev, K. Sapozhnikov and V.M. Chernov	261
Effects of Yttrium and Hydrogen on Internal Friction in Alloys Based on Commercially-Pure Titanium	
H. Wei, D. Geng, D. Geng, J. Zhang and C. Han	267
Investigation of the Influence of Impurities on the Grain Boundary Relaxation in Thin Al-Films on Si-Substrates	
H.G. Bohn and C.M. Su	273
The Nature of the Internal Friction Grain Boundary Peak	
Y.A. Fedorov and B.M. Darinskii	279
Interface Constraint on Grain Boundary Relaxation in Thin Al- and Al-Alloy Films on Si-Substrates	
C.M. Su and H.G. Bohn	285
Grain Boundary Relaxation under Irradiation	
A.Y. Totksy	291
Transient Internal Friction and Martensitic Phase Transformations	
J.-. Bidaux, G. Gremaud and W. Benoit	299
Elastic Constant Softenings and Damping Anomalies in the Vicinity of the Spin-Reorientation Phase Transition in Cobalt Single Crystals	
J.E. Bidaux and B. Cao	305
Temperature Shift of the Internal Friction Peak and the Dynamic Modulus at the Martensitic Transformation in Cu-Zn-Al Alloys	
J. Ilczuk, R. Kuska and H. Morawiec	311
Peculiarities of Internal Friction during Martensitic Transformation in N18K9M5T Steel	
J. Pastor	317
Internal Friction and Microdeformation on Cu-Al-Ni Shape Memory Alloys	
V. Recarte, J. Herreros, M.L. N�� and J. San Juan	323

Rheological Properties of Metals Coated with Organic Layer	331
E. Denga and B. Augustyniak	
Acoustic Microscopy of the Growth of Intermetallic Compound at Copper/Lead-Tin Alloy Interfaces	337
E. Drescher-Krasicka, H.T. Yolken, B.R. Tittmann, A.J. Shapiro and G. Lucey	
High Temperature Anelastic Relaxation of Dense Zircon Bodies	347
M. Gimenez, G. Fantozzi, R. Torrecillas, S. Moya and S. De Aza	
Internal Friction in Aluminium Alloys Reinforced with Short Saffil Fibres of Al_2O_3 Particles	353
A. Lakki and R. Schaller	
Elastic Characterization of AgNi Superlattices	359
V. Pelosin, B. Rodmacq, J. Hillairet, G. Carlotti, D. Fioretto and G. Socino	
Damping in Aluminium Alloys with Incoherent Particles	365
A. Pichler, M. Weller, E. Arzt and J. Diehl	
Heating Rate Dependent Internal Friction in the Microheterogeneous System Al 11.8% Si	371
X. Zhou, R. Fougères and A. Vincent	
Rayleigh Scattering of Ultrasonic Waves by Microstructures Obeying an Orientation Relationship with a Parent Phase	379
F. Bergner and B. Köhler	
Impurity Segregation and Precipitation - Effects on Modulus and Internal Friction	385
B. Beyer, E.-. Herbst and J. Wieting	
Influence of Oxygen on the High Temperature Internal Friction in Ni-20wt% Cr Alloys	391
B. Cao, R. Schaller, F. Cosandey and W. Benoit	
High Temperature Internal Friction Measurements in γ'-Ni_3Al	397
P. Gadaud and K. Chakib	
Internal Friction Measurements in Ni Co Cr Al Y Ta Alloys	401
P. Gadaud, A. Rivière and J. Woirgard	
The Loops of Modulus Defect and Internal Friction for "Loading-Unloading" in the Saturation Fatigue Stage of Iron and Steels	407
S.A. Golovin and A. Puskár	
The Dissipation Energy Mechanism of Mechanical Oscillations in High Chromium Ferritic Alloys in the Temperature Range -190 ... 780°C	413
I.S. Golovin, V.I. Sarra and S.O. Suvorova	
Investigation of "475°C Embrittlement" of High-Chromium Ferritic Steels with the Use of Internal Friction	419
I.S. Golovin, V.I. Sarra and S.O. Suvorova	
Physical Acoustics Applications of the Scanning Acoustic Microscope	425
G. Gremaud, A.V. Kulik, P. Richard and O. Behrend	
Low Frequency Peak of Internal Friction at $\alpha + \alpha' \rightleftharpoons \alpha + \beta$ Peritectical Reaction in Nb-H Systems	431
M.J. Katz and L.V. Spivak	
Structural Imperfections and Inelastic Properties of Boron Carbide	437
D. Lezhava, G. Darsavelidze, M. Antadze and G. Tsagareishvili	
Low Temperature Internal Friction in Reactor Pressure Vessel Steels	443
A. Munier, M. Maamouri, R. Schaller and O. Mercier	
The Influence of Hydrogen on the Anelastic Properties of High Purity Magnesium	449
M.L. Nó, J. San Juan and C. Esnouf	
A Correlation among Elastic Modulus Defect, Plastic Strain and Fatigue Life of Metals	455
A. Puskár	
Investigation of the Helium Atoms Behavior in Aluminium and its Alloys by the Method of Internal Friction	461
N.S. Zaritsky	
Internal Friction of Hydrogen Charged Nickel and Ni-Base Alloys	467
A. Zielinski and E. Lunarska	
An Analysis of Internal Friction at the Glass Transition in a Thermoset Polymer	477
D.P. Almond, O.G. Braddell and B. Harris	

Connectivity, Fragility, and Non-Exponentiality of Mechanical Relaxations in Covalently Bonded Glassformers	485
R. Böhmer and C.A. Angell	
Viscoelastic Relaxations of Polyesters from Itaconic Acid with Cyclohexil Group in the Lateral Chain	491
R. Díaz Calleja, L. Gargallo and D. Radic	
Anomalous Elastic Constants in an Oriented Polymer	497
J.Y. Duquesne and G. Bellessa	
A Langevin Type Description of Shear Stress Fluctuations in Flows of Viscoelastic Liquids	503
J.C. Dyre	
Effect of H and Cu on the Damping and Modulus of Amorphous NiZr Alloys	505
S. Kiss, Z. Cseresnyés, G. Posgay, K. Tompa and A. Lovas	
Mechanical Spectrometry of β Relaxation of PMMA	511
E. Muzeau and J. Pérez	
Interpretation of Lognormal Shape of Internal Friction Peaks in Amorphous Materials	517
I. Pócsik	
High Temperature Internal Friction in Glass Ceramic Matrix Composite	523
A. Rivière, L. Fadel and J. Woirgard	
Investigation of Glycerol Phase Transition by the Internal Friction Method	529
D. Samatowicz, A.V. Kulik and W. Benoit	
Observation of the Glass Transition of Metallic Glasses by Low-Frequency Internal Friction Measurements with a Collette Pendulum	535
H.R. Sinning	
Effects of Physical Ageing on Mechanical Relaxations of PET and PMMA	541
G. Vigier, E. Muzeau, M.B.M. Mangion, J. Tatibouet, R. Vassolle and J. Pérez	
Internal Friction Study on Phase Transition for K24 Liquid Crystal	547
J.S. Zhu, M.Y. Gu, Z.M. Sun, Z.F. Zhang, Y. Zhou and Z.Y. Zhou	
Interaction between Structural Defects and Magnetic Domain Walls in Fe-C Alloys	553
B. Astie and J. Degauque	
Magnetomechanical Damping Evaluation from Mechanical Barkhausen Effect	559
B. Augustyniak	
Anisotropy of Magnetomechanical Damping and Magnetic Properties of Oriented and Non-Oriented Fe-Si Alloys	565
Y. Gannac, J. Degauque, B. Astie and J.L. Gaufier	
Internal Friction and Magnetomechanical Coupling Dependences on Magnetic Field after Different Heat Treatments in $Fe_{80}B_{12}Si_8$ Metallic Glasses	573
Z. Kaczkowski	
Thermostimulated Perpendicular Magnetic Anisotropy and "Giant" ΔE-Effect in Amorphous Fe-B-P Alloys	579
V.A. Kislov, N.P. Kobelev and Y.M. Soifer	
Internal Friction, Young's Modulus and Barkhausen Effect in Magnetostrictive Metallic Glasses	585
L.M. Malkinski and B. Augustyniak	
Magnetomechanical Interactions	591
Z. Kaczkowski	
Oxygen Mobility and Phase Transformation in $RBa_2Cu_3O_{6+x}$	611
G. Cannelli, R. Cantelli, F. Cordero and F. Trequattrini	
Mechanical After-Effect Studies of Oxygen Relaxation in $YBa_2Cu_3O_{7-\delta}$	623
J.R. Cost and J.T. Stanley	
Effect of Phase Transitions on Ultrasonic Velocity and Attenuation in $YBa_2Cu_3O_z$	631
E. Drescher-Krasicka	
Sound Propagation in High T_c and other Unconventional Superconductors	643
M. Levy, S.W. Lin, B.K. Sarma, S. Adenwalla and J.B. Ketterson	
Internal Friction around T_c Connected with Superconductivity in High T_c Superconductors	659
Y.N. Wang	
Mechanical Loss Measurements on Y-Ba-Cu-O Superconductors	667
M. Weller	

Internal Friction Observation of Flux-Line Assembly in High T_c Superconductors	683
G. D'Anna, W. Benoit and J. Luzuriaga	
Elastic Energy Dissipation Oxygen Mobility and Structural Stability in YBa₂Cu₃O_{7-x}	689
E. Bonetti, E.G. Campari, V. Luprano, S. Mantovani, S. Casagrande and P. Cammarota	
Inelastic Effects in High T_c Superconductors	695
M. Gazda, B. Kusz, R. Barczynski, O. Gzowski, L. Murawski, I. Davoli and M. Berrettoni	
Low-Temperature Relaxation and Elastic Properties of YBa₂Cu₃O_x with Different Oxygen Content	701
H.-. Kaufmann, P.P. Pal-Val, L.N. Pal-Val, V.D. Natsik, J. Fickert and V.V. Demirskij	
Dynamic Study of Oxygen Relaxations in YBa₂Cu₃O_{7-δ}	707
Y. Mi, D. Mari, R. Schaller and W. Benoit	
Mechanical Loss Spectroscopy of Polycrystalline YBa₂Cu₃O_{7-x} and Y_{1-y}Ca_yBa₂Cu₃O_{7-x}-Superconductors	713
N. Rüffer, G. Kaiser, K. Schulze and M. Weller	
Study of Oxygen Diffusion in Superconducting YBa₂Cu₃O_{7-δ} by Low Frequency Mechanical Spectroscopy	719
J. Woirgard, P. Gadaud, A. Rivière and B. Kaya	
Workshop on High T_c Superconductors - Report on Roundtable Discussion	725
D.P. Almond	
Introduction to Mechanical Spectroscopy	743
L.B. Magalas and R. De Batist	
Snoek Relaxation	747
L.B. Magalas	
Directional Short-Range Ordering in Solid Solutions	749
J. Hillairet	
Quantum Effects in Point Defect Relaxations	751
A.V. Granato	
Atomic Rearrangements in Noncrystalline Solids	755
J. Pérez	
Intrinsic Properties of Dislocations	759
W. Benoit	
Inertial Effects of Dislocations	767
A.V. Granato	
Dislocation-Point Defects Interactions	771
G. Gremaud	
Anelastic Relaxations due to Grain Boundaries	775
K. Iwasaki	
Internal Friction and Phase Transformations	781
M. Wuttig and T. Suzuki	
Application of Mechanical Spectroscopy to Physical Metallurgy	783
V.I. Sarra	
Study of Precipitation and Recrystallization	785
R. Schaller	
Application of Mechanical Spectroscopy to Study the Fatigue of Metals	791
A. Puskár and S.A. Golovin	
Internal Friction Associated with Hydrogen in Metals	795
O. Yoshinari and M. Koiwa	
Irradiation Damage	799
S. Okuda	
High Damping Materials	803
R. Schaller and J. Van Humbeeck	
Study of Polymer Materials	809
J. Pérez	
Mechanical Relaxations in Glasses	813
C.A. Angell	
Coupling-Model, Interpretations of Mechanical Spectroscopy in Materials Science	817
K.L. Ngai	

Defects in Oxide Ceramics	819
M. Weller	
Internal Friction in Ceramics	821
G. Fantozzi	
Damping Processes in Composite Materials and Fibres	823
R.D. Adams	
Low Frequency Techniques Very Low Frequency Mechanical Spectroscopy	825
J. Woigard and A. Rivière	
Low Frequency Techniques Special Applications of Very Low Frequency Mechanical Spectroscopy	827
S. Etienne	
Dynamic Mechanical Analysis and Defect Spectroscopy of Thin-Layer Materials	829
B.S. Berry	
Surface Acoustic Wave Measurements on Superconducting Films	831
M. Levy	
Guided Leaky Waves in Acoustic Microscopy	833
E. Drescher-Krasicka and J.A. Simmons	
Magnetomechanical Effects and Magnetomechanical Damping of Ferromagnetic Materials	839
J. Degauque	
Mechanical Spectroscopy and Quantitative Nondestructive Evaluation	847
O. Buck and D.O. Thompson	
Damping in Engineering Materials: Its Measurement, Properties and Application to Limiting Structural Vibration	849
R.D. Adams
