Preface

Chapter 1: Composites and Polymers

Wear Behavior Prediction of Mg/2.5wt.%BN Composite Using Artificial Neural Networks in MATLAB S.C. Ramesh Kumar, R.V. Prasad Kaviti and L. Mahesh	3
Investigation of Mechanical Properties in Nanoclay-Filled GRP Composites for Large-Scale Applications U.J. Jadhao and N.H. Ambhore	11
Initial Research on Core Material Modeling for Testing High Temperature and Wind Mixtures in Aluminum Composite Panels P.H. Tjahjanti, A. Fahrudin and M.E. Wicaksono	19
Damping Properties of Magnesium Alloy-S45 Composites with Varying Diameter of Specimen K. Park, K. Sugio and G. Sasaki	27
Microstructure and Mechanical Properties of Tungsten Fiber-Reinforced Composites Fabricated by Spark Plasma Sintering H. Huiseong, K. Sugio and G. Sasaki	33
Study of Structure–Property Relationships in Methacrylate-Functionalized POSS Nanocomposites Using Molecular Dynamics Simulations C.M.R. Madhuranthakam	39
Future Perspectives of Natural Fibers and Natural Fiber-Based Composites in Various Applications N. Venkatesh, K. Mohan Kumar and D. Soma	45
Eco-Friendly Polypropylene Composites Filled with Crab Shell Powder: A Review I.G.P.A. Suryawan, J. Loandruw, I.P. Lokantara and W.T. Baskoro	53
Isotropic Properties of Polyester/Basal Laminate Composites at Weave Angle Orientations Based on Tensile Strength I.G.P.A. Suryawan, J. Loandruw, M.A. Alfatin, N.P.G. Suardana, A.A.I.A.S. Komaladewi and I.N. Artana	67
Analysis of Hydraulic Compression Load and Fly Ash Volume Fraction on the Impact Strength of Sugarcane Fiber Reinforced Composite Materials Using the Compression Molding Method M. Pramudia, R.M. Yusron and Y.Y. Maulana	81
Optimization of Tensile Strength in Unidirectional Banana Midrib Fiber-Reinforced Composites A. Wahjudi, F.M. Ishaq, D.B. Darmadi, A. Purnowidodo, A.S. Widodo and K. Anam	91
A Review: Utilization of Natural Abaca Fiber in Sandwich Composites and Prospects for Abaca Fiber Utilization in the Shipbuilding Industry R.E.P. Utomo, P.B.W. Wardhana and I.G.N.Ā.S.P.D. Yuda	99
Evaluating the Reliability of Theoretical Predictions for Tensile Strength in Natural Fiber-Reinforced Composites K. Anam, A.H. Priambodo, H. Wijaya and P.H. Setyarini	127
Environmentally Friendly Bioplastic Innovation Based on Banana Peel Waste as a Solution to Reduce Conventional Plastic I.Y. Abdulloh, A. Maulana, A.A.N. Rachman, M.K. Ashrori, D. Puspitasari, A.M. Sakti, D. Wulandari, D. Riandadari, A. Nugroho, F.Y. Utama and A.N.F. Ganda	137
Experimental Investigation of Effect of Recycled Epoxy Micro Powder Reinforcement on Flexural, Hardness and Impact Behavior of Acrylonitrile Butadiene Styrene G. Narasimhaiah, H.S. Kumara Swamy and C.K. Umesh	149

Chapter 2: Functional Materials

A Brief Review on Fabricating Diluted Magnetic Semiconductor by Electrodeposition Method	
M.N. Agusutrisno, I. Saraswati, T. Firmansyah, I. Muttakin, A. Ramadhani and M. Khairi	161
The Effect of α-Fe₂O₃ and Fe₃O₄ as Transport Layer on the Photovoltaic Performance of Perovskite-Based Solar Cells	
Y.R. Denny, T. Hafid, M.I. Santoso, I. Indrianto, M.B. Sitorus, R. Alfanz, J. Kariongan and A. Asan	175

Chapter 3: Microstructural Evolution and Property Analysis of Metallic Materials

<i>In-Situ</i> SEM Study of Temperature Effects on Austenite Grain Growth and Boundaries Migration	
S. Liu, X.J. Ye and Y.F. Zhang	185
Effect of Carbon Equivalent on Thermal Conductivity of Titanium-Alloyed Gray Cast Iron	
K. Worakhut, W. Boonyarit, S. Mangmee, W. Hansongkhram, T. Soipornmat, H. Khochadklang, P. Buahombura and S. Boonmee	195
Microstructural Evolution and Coupling Behavior of Dynamic Softening and Phase Transformation in TC18 Alloy during Hot Compression	
K. Wang, G. Sasaki, K. Sugio and Y. Guo	201
