

Table of Contents

Preface

Bulk and Defect Electronic Structure of Magnetic Alloys

J. Kanamori and H. Akai 1

Electronic Structure and Phase Stability of Alloys

D. de Fontaine 25

Ab Initio Calculation of Phase Stability of Noble-Metal Alloys

K. Terakura, T. Mohri and T. Oguchi 39

Positron-Annihilation 2D-Acar Studies of Disordered and Defected Alloys

A. Bansil, R. Prasad, L.C. Smedskjaer, R. Benedek and P.E. Mijnarends 49

Computer Simulation of the Deformation of Small Crystals

M. Doyama and R. Yamamoto 77

Dynamical Optimization Techniques for the Calculation of Electronic Structure in Solids

R. Benedek, B.I. Min and J. Garner 87

Electronic Theory of Dislocations and Grain Boundaries in Metals

K. Masuda-Jindo 97

Fermi Surfaces in Hexagonal Transition Metals and Rare Earth Hexaborides Determined by Two Dimensional Angular Correlation of Annihilation Radiations (2D-Acar)

S. Tanigawa 111

Low-Temperature Anomaly of Positron Trapping by Defects in Metals

Y. Shirai and J. Takamura 123

Perturbed Angular Correlations Studies of Alloys

G.S. Collins 139

¹¹¹Cd in In-Sn Alloys

S. Nasu, F.E. Fujita, Y. Kawase and S. Uehara 151

Electronic Structure of Random Alloys and the Theory of Ordering Processes

G.M. Stocks, D.M. Nicholson, F.J. Pinsky, D.D. Johnson and A. Gonis 161

Local Electronic Structure and Chemical Bonding around Fe-Vacancy Pair in Aluminium

H. Adachi, S. Nasu and F.E. Fujita 175

Structural Stability of Intermetallic Compounds: A Computational Metallurgical Approach

A.J. Freeman 181

Electronic States in a Quasicrystal

T. Ninomiya 193

Theoretical Studies of Defects in Insulators within the Framework of the Local Density Approximation

M.R. Pederson and B.M. Klein 199

A Fast KKR-CPA Method and Electronic Structure of Transition Metal Alloys

H. Akai 211

The Calculation of the Equilibrium Interface Structure of Alloys

S.M. Foiles, M.I. Baskes and M.S. Daw 223

Atomic and Electronic States of Carbon in Fe-C Martensite

F.E. Fujita and S. Nasu 235

Defects and Diffusion in Amorphous NiZr

R.S. Averback and H.T. Hahn 245

Lattice Defects in the Charge Density Wave System NbSe₃

A.C. Ehrlich, T.M. Tritt, D.J. Gillespie and G.X. Tessema 253

High Temperature Superconductivity in Transition Metal Oxides: Electronic Structure and Charge Transfer Excitations

A.J. Freeman and J.J. Yu 267

NMR Studies on the Interface Magnetism in Metallic Superlattices

H. Yasuoka 277

The Electrical Resistivities of Metallic Multi-Layered Films, Mo/Cu and Mo/Al

R. Yamamoto 291
