

Table of Contents

Preface

Processing of Thin Film Silicon Solar Cells under Ionic Bombardment Control M. Kondo and A. Matsuda	1
Influence of the Plasma Regime on the Structural, Optical, Electrical and Morphological Properties of a-Si:H Thin Films H. Águas, R. Martins, Y. Nunes, M.J.P. Maneira and E. Fortunato	11
Silicon Films Produced by PECVD under Powder Formation Conditions R. Martins, H. Águas, V. Silva, I. Ferreira, A. Cabrita and E. Fortunato	21
Microgravity Experiments in the MIR Space Station A.P. Nefedov	31
Laser-Excited Mach Cones in Plasma Crystals A. Melzer, S. Nunomura, D. Samsonov and J. Goree	41
Laser Excitation of Oscillations and Waves in Dust Crystals: a Tutorial A. Piel	47
Charging Kinetics of Dust Particles with a Variable Mass S.A. Trigger	59
Influence of Dust Particles on Sheaths in an Oblique Magnetic Field Y.I. Chutov, O.Y. Kravchenko and V.S. Yakovetsky	63
Radio Frequency Discharge with Dust Particles Y.I. Chutov, W.J. Goedheer, O.Y. Kravchenko, V.M. Zuz and M. Yan	69
