

Table of Contents

The Growth and Development of Plutonium Fuels Technology in India P.R. Roy	1
Fabrication of Fuel for Water Reactors G.V.S.R.K. Somayajulu, N. Swaminathan, R. Rajendran and K. Balaramamoorthy	9
Development of Cladding and Structural Materials for Thermal and Fast Reactor Programme in India C.V. Sundaram, P. Rodriguez, S.L. Mannan and S. Venkadesan	21
Choice of Fuel Material for India's Fast Reactor Programme S.R. Paranjpe	49
Super Phenix Core Fabrication R. Vandevor	63
Main Options for Super-Phenix Core Assemblies Design F. Rouches and J.C. Nervi	73
Design Aspects of Metallic Fuel for Research Reactors and Ceramic Fuel for Boiling Water Reactors S.K. Metha, K. Anantharaman, S.M. Chaudhary and K.R. Srinivasan	95
Design Aspects of PHWR for Improved Performance M. Das	109
Thorium Utilisation in Indian Power Programme K. Balakrishnan and C. Ganguly	125
Manufacture of the First Charge for the Super-Phenix Reactor J. Pajot, M. Beche and M.J. Heyraud	139
Fabrication of (U, Pu)C and (U, Pu)N Fuels for FBTR and PFBR C. Ganguly, P.V. Hegde, G.C. Jain and U. Basak	153
Alternative Fuels for the French Fast Breeder Reactors Programme H. Bailly, H. Bernard and B. Mansard	175
Modifications in the "Powder-Pellet" Route for Higher Recovery and Reduced Fuel Fabrication Cost of UO₂/MOX Fuel S. Majumdar, M.R. Nair, R. Ramachandran and H.S. Kamath	185
Zirconium Alloys as Cladding and Structural Materials for Water Cooled Reactors M.K. Asundi and S. Banerjee	201
MOX Fuel Plans in LWRs G. Lebastard	221
MOX Fuel Fabrication Experience and MOX Plant D.S.C. Purushotham	231
Experience in BARC on the Preparation of Gel Microspheres of Uranium, Thorium and Plutonium Fuels D.D. Sood and V.N. Vaidya	245
Encapsulation of Plutonium Based Fuel Pins G.L. Goswami, M.S. Sargunam, K.N. Kedia, A. Chatterjee, V.R. Nair and O.L. D'Souza	257
Engineering & Safety Features in Plutonium Fuel Fabrication Facility K.G. Phadke, V. Suryanarayanan, T.S. Balan, A.G. Deshmukh and K.N. Mahule	269
Health Physics Aspects of Plutonium and Uranium Fuel Fabrication S.D. Soman	287
The Status of Development of LEU-Fuels for Research Reactors S. Nazare	297
Development and Fabrication of Al-U²³³ and Al-Pu Plate Fuel Elements for PURNIMA III/KAMINI G.J. Prasad, K.V.J. Asari and C. Ganguly	315
Experiences in the Fabrication of the Aluminium Clad Metallic Uranium Fuel R. Vijayaraghavan	329
Quality Assurance and Quality Control in Water Reactor Fuel Production V.A. Chandramouli, T.S. Krishnan and K. Balaramamoorthy	347

Inspection and Quality Control Experience of FBTR and KAMINI Fuels J.K. Ghosh, J.P. Panakkal, V.D. Pandey, S. Muralidhar, K.N. Chandrasekharan, T.R.G. Kutty and A. Subramanian	355
Chemical Quality Control of Nuclear Fuels S.K. Patil	371
Atomic Spectroscopy for Trace Metallic Assay of Nuclear Fuels M.D. Sastry	381
Performance of PHWR and BWR Fuels S.K. Chatterjee	393
Manufacturing Quality, Performance and Inspection Results of the VVER-440 UO₂ Fuel at the Loviisa NPS J. Moisio, R. Kvarnström and T. Planman	403
Post Irradiation Examination of DHRUVA, TAPS and MAPS Fuels K.S. Sivaramakrishnan and K.C. Sahoo	425
