

Table of Contents

Preface

Prospects for Commercialization of Materials Processed in Space R. Mazelsky	1
Residual Acceleration Effects in Directional Solidification Experiments Conducted in Various Low-g Environments A. Chait and W.A. Arnold	13
Congruent Vapor Transport in 1-g Conditions N.B. Singh	29
Homogeneity and Behaviours of Deep Centers of the Space Melt Grown GaAs Crystals Z.G. Wang, Z.W. Shi, S.D. Xu, J.M. Fu and L.Y. Lin	33
Metal Whiskers: A Convection Connection H.H. Hobbs	39
Influence of Microgravity on the Morphology of the Eutectic Volume between the Dendrites and on the Coarsening of Dendrites H.M. Tensi, J.J. Schmidt and C. Mackrodt	45
Convection during Directional Solidification of Dendritic Alloys D.R. Poirier, P.J. Nandapurkar, J.C. Heinrich and S. Felicelli	65
Effect of Impurity on the Growth Rates and Morphology of Dendritic Crystals N.B. Singh, N. Singh, U.S. Rai, O.P. Singh and M.E. Glicksman	79
Hypermonotectic Alloy Solidification in a Microgravity Environment R.N. Grugel and R. Poorman	89
Chiral Organic Crystals for High Power Frequency Conversion L.E. Davis, S.P. Velsko and D. Eimerl	101
Growth of Pure Lead Chloride Single Crystals from the Melt for Device Applications W.M.B. Duval and N.B. Singh	109
Solidification Behaviour of Organic Eutectics and Addition Compounds U.S. Rai and K.D. Mandal	117
Effect of Bulk Undercooling on the Structure of Rapidly Solidified Titanium-4 wt.% Cerium D.R. Kegley Jr., J.E. Wittig, W.H. Hofmeister, R.J. Bayuzick and R.G. Rowe	129
Metastable Liquid Immiscibility in Fe-Cu and Co-Cu Alloys S.P. Elder, A. Munitz and G.J. Abbaschian	137
Containerless Processing of Niobium-Based Alloys K.R. Javed and G.J. Abbaschian	151
A Microstructural Examination of Ti-50Al and other Binary Ti-Al Alloys that Have Been Splat-Quenched After Bulk Undercooling C.D. Anderson, W.H. Hofmeister, J.E. Wittig, R.J. Bayuzick and D.J. Skinner	165
Splat Quenching of Undercooled Nb-Si Alloys from 20 to 27 At.% Si G.A. Bertero, W.H. Hofmeister, M.B. Robinson and R.J. Bayuzick	173
Preparation and Properties of GaAs Single Crystal Grown from Melt under Microgravity Conditions L.Y. Lin and D.A. Da	183
Intrinsic Coercivities of Rapidly Solidified Alloys of Pt-Co-B J. Teubert, J. Wittig and T. Overfelt	197
Low Gravity Interfacial Instabilities in Liquid Encapsulated Crystal Growth W.E. Harter, X. Zhao and Y. Narayanan	205
