

Table of Contents

Preface

Introduction and Overview

W.M. Yen 1

Relaxation and Critical Dynamics in Spin Glasses

J. Ferre and N. Bontemps 21

Optical Dephasing in Glasses

D.L. Huber 77

The Two Level Tunneling Centers in Glasses

Y. Fu 93

Laser-Induced Gratings in Rare Earth-Doped Glasses

R.C. Powell, E.G. Behrens and F.M. Durville 115

Optical Energy Transfer in Activated Glasses

R.T. Brundage 139

Migration-Accelerated Quenching of Luminescence in Glasses Activated by Rare-Earth Ions

V.P. Gapontsev and N.S. Platonov 165

Computer Simulation Studies of Dynamical Processes in Disordered Systems

D.P. Landau 223
