Preface

Sputter Deposited Boron Nitride: A Review

C.R. Aita 1

Thin Boron Nitride Films Obtained by Physical Vapour Deposition and by Ion Beam Assisted Techniques

L. Guzman and M. Elena 21

Coating Film Formation of Boron Nitride by Means of Dynamic Mixing Method

F. Fujimoto 45

Ion Assisted Synthesis of Boron Nitride Coatings

W.D. Halverson, T.G. Tetreault and J.K. Hirvonen 71

Preparation of Boron Nitride Thin Films by Chemical Vapor Deposition

K. Nakamura 111

Chemical Vapor Deposition of Turbostratic and Hexagonal Boron Nitride

K. Sugiyama and H. Itoh 141

Growth of BN Thin Films by Pulsed Laser Evaporation

P.T. Murray 153

High Density Phases of BN

P.K. Lam, R.M. Wentzcovitch and M.L. Cohen 165

The Microstructure of Boron Nitride Thin Films

D.R. McKenzie, W.G. Sainty and D. Green 193

Low Energy Auger Transitions of h-BN and c-BN: An Example of the Influence of Crystallographic Structure on the Auger Decay

G. Hanke, M. Kramer and K. Müller 207

The Properties of Low Pressure Chemical Vapor Deposited Boron Nitride Thin Films

S.S. Dana 229

Boron-Nitrogen-Hydrogen Thin Films

M. Karnezos 261

Characterization of BN Thin Films Deposited by Plasma CVD

Y. Osaka, A. Chayahara, H. Yokoyama, M. Okamoto, T. Hamada, T. Imura and M. Fujisawa 277

A Promising Boron-Carbon-Nitrogen Thin Film

K. Montasser, S. MORITA and S. Hattori 295

Cubic Boron Nitride PN Junction Made at High Pressure

O. Mishima 313

Thin Film Boron Nitride for Semiconductor Application

E. Yamaguchi 329

Boron Nitride Thin Insulating Films on GaAs Compound Semiconductors

V.J. Kapoor and G.G. Skebe 353

Fundamental Tribological Properties of Ion-Beam-Deposited Boron Nitride Thin Films

K. Miyoshi 375

Fast Atom Beam Techniques for BN and other Hard Film Formations and Applications to Friction-Reducing Coatings

H. Kuwano 399
