

# Table of Contents

<b>Oxynitride Research in the Nano Era</b> D.P. Thompson	1
<b>Oxynitride Glasses: Preparation, Properties and Implications for Mechanical Behaviour of Silicon Nitride</b> S. Hampshire and M.J. Pomeroy	11
<b>An Introduction to the Glass Formation and Properties of Ca-Si-Al-O-N-F Glasses</b> A.R. Hanifi, A. Genson, M.J. Pomeroy and S. Hampshire	17
<b>Effect of Cooling Rate on Glass Formation for Some Oxynitride Glasses</b> W. Redington, M. Redington and S. Hampshire	25
<b>Effect of Fluorine and Nitrogen Anions on Properties of Ca-Si-Al-O Glasses</b> A. Genson, A.R. Hanifi, A.V. Put, M.J. Pomeroy and S. Hampshire	31
<b>Jasminaldehyde Synthesis Catalyzed by Al(Ga)PON Oxynitrides: Influence of the Reaction Conditions</b> M. Hasni, J. Rouchaud, P. Grange, M. Devillers and S. Delsarte	37
<b>Local Structures of Si<sub>2</sub>(O,N)<sub>7</sub> Ditetrahedra in J-Phase</b> J. Takahashi, M. Shimada and H. Yamane	43
<b>Mechanochemical Nitride Synthesis</b> D.P. Thompson	51
<b>The New Top-To-Bottom Method of SiAlON Precursor Preparation by Activation in a Planetary Mill with a High Acceleration</b> M. Sopicka-Lizer, M. Tańcula, T. Pawlik, V. Kochnev and E. Fokina	59
<b>CVD Synthesis of Tungsten Nitride and Its Deposition Behavior</b> M. Nagai and H. Nakaya	65
<b>Utilization of a Phosphate Ester as a Dispersant for SiAlON Based Ceramics</b> A. Ceylan, E. Suvaci and H. Mandal	71
<b>Textured <math>\alpha</math>-SiAlON Ceramics via Templated Grain Growth</b> S.R. Kushan, N. Tamsu, N.C. Acikbas, E. Suvaci and H. Mandal	79
<b>Fabrication of Porous <math>\beta</math>-SiAlON Preforms from Kaolin for Liquid Metal Infiltration</b> A. Demir and F. Caliskan	85
<b>SPS-Technology - A New Range of Possibilities for the FAST Consolidation of Innovative Material</b> H. Kessel	91
<b>Densification of Sr-Mg Doped SiAlONs with GPS and SPS</b> S. Kurama and M. Herrmann	95
<b>Role of <math>\alpha</math>-SiAlON Nuclei Addition on the Rod-Like Y-Sm <math>\alpha</math>-SiAlON Formation</b> S.R. Kushan, N.C. Acikbas, J. Křest'an, P. Šajgalík and H. Mandal	101
<b>Vacuum Heat Treatment of MgO -Densified Pressureless Sintered Silicon Nitride Ceramics</b> V. Demir and D.P. Thompson	107
<b>The Intergranular Oxynitride Microstructure in Silicon Nitride Based Ceramics</b> L.K.L. Falk, N. Schneider, Y. Menke and S. Hampshire	113
<b>Influence of Type of Cations on Intergranular Phase Crystallisation of SiAlON Ceramics</b> N.C. Acikbas, A. Kara, S. Turan, F. Kara, H. Mandal and B. Bitterlich	119
<b>Silicon Nitride – Carbon Nanotube Composites</b> C. Balázs, Z. Czigány, F. Wéber, Z. Kónya, Z. Vértesy, L.P. Biró, I. Kiricsi and P. Arató	123
<b>Particle -Reinforced SiAlONs for Cutting Tools</b> B. Bitterlich and K. Friederich	129
<b>ZrO<sub>2</sub>-TiN Composites</b> S. Salehi, O.V. Biest and J. Vleugels	135
<b>Effect of Fibre Heat-Treatment on Nicalon SiC Fibre Reinforced <math>\beta</math>-SiAlON Matrix Composites</b> A. Demir and D.P. Thompson	141
<b>Corrosion Resistance of <math>\beta</math>-SiAlON-Based Ceramics Against Molten Steel</b> P. Šajgalík, J. Křest'an and Z. Lenčėš	147

<b>From Earth Minerals to Nitrides</b> N. Karakus, A.O. Kurt and O. Toplan	151
<b>The Growth and the Reaction Mechanism of Si<sub>3</sub>N<sub>4</sub> Powder from Silica</b> A. Atasoy	157
<b>Carbothermal Reduction and Nitridation of Quartz Mineral for the Production of Alpha Silicon Nitride Powders</b> A. Demir, Z. Tatli, F. Caliskan and A.O. Kurt	163
<b>Carbothermal Reduction and Nitridation of Çanakkale Origin Kaolin for SiAlON Powder Production</b> Z. Tatli, A. Demir and F. Caliskan	169
<b>Transformation Potential of Kalemaden Clay – 220 to Technological Ceramics</b> R. Yilmaz and A.O. Kurt	175
<b>Liquid Phase Sintering of Aluminum Nitride</b> K. Komeya and J. Tatami	181
<b>Aqueous Processing of AlN Powder</b> K. Krnel and T. Kosmač	189
<b>Microstructural Aspects of the Hot-Pressed Hexagonal Boron Nitride Ceramics with Limited Content of Boron Oxide</b> B. Ertug, T. Boyraz and O. Addemir	197
<b>An Investigation of the Mechanical Properties and Fracture Characteristic of Hot-Pressed Boron Nitride Ceramics</b> B. Ertug, T. Boyraz and O. Addemir	201
<b>Pressureless Sintering of Hexagonal Boron Nitride Powders</b> N. Ay and I. Tore	207
<b>Characterization of Niobium Carbonitride Coating on AISI D2 Steel</b> U. Şen and Ş. Şen	213
<b>Structural Characterization of Titanium Nitride Coatings on AISI M2 Steel</b> G. Deniz, Ş. Şen and U. Şen	219
