

Table of Contents

Preface**An Introduction to Acousto-Optic Materials**

R. Mazelsky and D.K. Fox 1

Growth, Characterization and Device Design: Thallium Phosphorus Selenide Crystals

M. Gottlieb and N.B. Singh 7

The Manufacturing of Tl_3AsSe_3 Crystals for Acousto-Optic Tunable Filters

J.P. Muzzy, F.M. Ryan and N.B. Singh 19

Thermal Annealing of Zinc-Doped InP

T. Litong, J.L. Zhou and F. Dunfu 29

Growth of Large Diameter <100> InP Crystals

F. Dunfu, T. Litong and X. Yongquan 37

Kinetics and Morphology of Plasma Etching of Mercurous Halides

N.B. Singh, R.K. Sadhir, R.H. Hopkins, R. Mazelsky and H.E. Saunders 43

Experimental Measurement of Very Small Angle Stray Light Optical Performance of Selected Acousto-Optic Materials

J.C. Stover, D.R. Bjork, R.B. Brown and J.N. Lee 57

Physical Properties of Single Crystals of The Calomel Gorup (Hg_2X_2 : X=Cl, Br)¹

C. Bárta and C. Barta Jr. 93

Characterization of Certain Acousto-Optic Materials

K.A. McCarthy, H.H. Sample and M.B. Koss 151
