

Preface

Since then 23 years have passed and we have just accomplished the sixth year of this conference. It was held on September 2nd-4th, 2015 traditionally on the premises of the Faculty of Chemistry. The conference was held under the auspices of prof. RNDr. Ing. Petr Štěpánek - the rector of the Technical University of Brno. The scientific program of the conference was divided into 8 sections introduced by the lectures of Prof. G.H Pollack from the University of Washington, Prof. Karin Kovar from Zurich University of Applied Sciences Waedenswil, Prof. Alfreda J.

Crosby from the University of Massachusetts Amherst, Dr. Lisy Melymuk, the graduate from the University of Toronto, from Masaryk University in Brno (RECETOX) and Associate Professor Jacob Hofman also from Masaryk University (RECETOX).

The conference was attended by about 200 experts, academics and doctoral students from 12 countries who presented their findings in the lectures (70) or in the form of a poster presentation (96). In addition, there were also two workshops: Organic and Printed Electronics (under the auspices of Coatema Coating Machinery GmbH) and Physical Chemistry & Life.
