

Preface

As we all know, in the last few years, functional materials and materials engineering have played an important role in the progress of human society and research of scholars in the related field has accumulated a treasure of accomplishments and promoted the development of academic studies, meanwhile, researchers are faced with a lot of problems.

Under such background, 2016 2nd International Conference on Smart Material Research (ICSMR 2016) was held during September 22-24, 2016 in Istanbul, Turkey, with the purpose of being a great platform for researchers and engineers in the areas of materials engineering to report the latest achievements of research efforts, to discuss the wide range of problems encountered at present face to face, and to be inspired and enlightened by the works of others.

The activities of the conference included invited speeches and oral presentations in sessions, including poster presentations. The invited talks were focused on the potential application of smart material in various fields.

This collection consists of 29 peer-reviewed papers, in combination with a few selected papers from 2016 International Conference on Innovative Engineering Materials, which was held during August 20-22, 2016 in Singapore. The volume is divided into 7 chapters which included results of researches of biocomposite materials, materials for biomedical application, functional ceramics, materials for opto- and microelectronics, materials for energy storage application, functional coatings and films, steel, alloys, building materials.

We believe the volume will be essential reading for those in the related areas and will provide an inspiration for future studies and advancement.

We'd like to express our gratitude to all the members of conference committee, and the reviewers who spared their valuable time, for their advice which have certainly helped to improve the quality, accuracy, relevance and the sincere efforts to maintain the quality of each paper selected for this conference program and volume for publication.

Prof. Osman Adiguzel, Firat University, Department of Physics, Turkey
Prof. Yunqiu He, Tongji University, China

November 2016.

Committee

International Advisory Committees

Prof. María Vallet Regí, Inorganic and Bioinorganic Chemistry Department. Faculty of Pharmacy. Universidad Complutense de Madrid, Spain

Prof. Nidal H. Abu-Hamdeh/Mechanical Engineering Department, Faculty of Engineering, King Abdulaziz University, Saudi Arabia

Conference Committee Chairs

Prof. Osman Adiguzel, Firat University, Department of Physics, Turkey

Program Committee Chairs

Prof. Dr. Saud Hamad Aldajah, Abu Dhabi Polytechnic, UAE

Technical Committee Chairs

Prof. Atef A. Ata, Alexandria University, Egypt

Prof. Alexander Pesin, Nosov Magnitogorsk State Technical University, Russia

Prof. Maya Kiskinova, Elettra-Sincrotrone, Italy

Dr. Isabelle Berbezier, University Paul Cézanne, France

Prof. Raghuvir Pai B., Manipal University, India

Asst. Prof. Ramin Yousefi, Islamic Azad University, Iran

Dr. Carlos Rolando Rios-Soberanis, Centro de Investigación Científica de Yucatán, México

Dr. Irshad Ahmad, American University of Ras Al Khaimah, UAE

Dr. Siti Rahmah Aid, Malaysia-Japan International Institute of Technology(MJIIT), Universiti Teknologi Malaysia, Malaysia

Dr. Agus Arsad, Universiti Teknologi Malaysia, Malaysia

Dr. Adnan Younis, School of Materials Science and Engineering, University of New South Wales, Sydney, Australia

Nursabilillah Mohd Ali, University Teknikal Malaysia, Durian Tunggal, Malaysia
