

Table of Contents

Preface

Chapter 1: Steel, Alloys, Materials Processing Technologies

Cavitation Erosion Behavior of Duplex Stainless Steel under High-Pressure Jet H.S. Xu and Q. Dong	3
Recent Developments of Martensitic Heat-Resistant Steels for Ultra-Supercritical Power Plants X. Qiao, L.L. Wang and X.F. Bai	10
Microstructure Evolution and Mechanical Properties of Mg-7Gd-3Y-1Nd-2Zn-0.5Zr Alloy during Two-Step Homogenization Heat Treatment T. Li, Z.W. Du, W. Liu, J.W. Yuan, K. Zhang, D.J. Chen and S.N. Zhou	15
A Study on Coolant Parameters in Internal Grinding of 9CrSi Steel L.X. Hung, V.T. Lien, V.N. Pi and B.T. Long	24
Experimental Study on the Surface Roughness of 1060 Aluminum Alloy Cut by Abrasive Water Jet Q.W. Xu, C.H. Qiang and C.W. Guo	32
Analysis of the Cutting Surface Striation Shape L.C. Li, Q.W. Xu and C.W. Guo	38
Laser Based Manufacturing of Ti6Al4V: A Comparison of LENS and Selective Laser Melting N.K.K. Arthur	44
Studying the Effect of Manganese Content on TRIP Advanced High Strength Steel A. El-Sherbiny, A.Y. Shash, M.K. El-Fawkhry, T.M. El-Hossainy and T. Mattar	50
Recent Advances on the Deformation Behavior of Two-Phase $\alpha+\beta$ Titanium Alloys S. Ankem, W.J. Joost and S.C. Schwarm	55
Interpass Temperature Affecting Abrasive Wear Resistance of SMAW Hard-Faced Weld Metal on JIS-S50C Carbon Steel S. Triwanapong, S. Angthong and K. Kimapong	60
A Study on the Effect of the Temperature on Mechanical Properties of H90 Copper Strip S. Fei and X. Cheng	65
Effect of GMAW Shielding Gas on Tensile Strength of Dissimilar SS400 Carbon Steel and SUS304 Stainless Steel Butt Joint K. Kimapong and S. Triwanapong	70
Application of Electric Field during the Heat Treatment: The Device Development and the Effect on Mechanical Properties of AA 6082 Z.H. Xu, C.R. Ding and D.B. Shan	75
Forming Analysis of AZ80 Magnesium Alloy Thick-Walled Tube Fabricated by Hydrostatic Shrinkage Extrusion Y. Li and R.S. Yuan	80
Experimental Study of Cold-Formed Steel Moment Connections with Screw Fasteners A.L.Y. Ng and Z.Y. Law	85
Improving Process Capability of Cutting and Drilling Processes of Elevator Assembly Parts R. Kanchana	90

Chapter 2: Special and Functional Materials

Synthesis and Electromagnetic Shielding Properties of Graphene-Fe₃O₄-BaTiO₃/ Silicone Rubber Nanocomposites P.Z. Liu, L. Zhang, W.F. Wang, W. Cheng, D.F. Li and D.Y. Zhang	97
Experimental Study on the Mitigation Effect of Polyurethane Foam Densities on the Cylindrical Objects Entering Water at High Velocity H.T. Qian, S.S. Feng, Z.Y. Shao and S.Y. Wu	103

<i>In Situ</i> Rapid Dechlorination by Microwave-Assisted Catalytic Reduction of Chlorobenzene and 1,4-Dichlorobenzene on Raney Ni-Al Alloy Catalyst B.Y. Lu and X.H. Hou	110
Optimization of Compressive Strength of Reactive Powder Concrete for an Energy Storage Pile Application Using Response Surface Method U. Bektimirova, E. Sharafutdinov, A. Tleuken, C.S. Shon, D.C. Zhang and J.R. Kim	117
Screen-Printed NiO-YSZ Thin Film Electrode for Solid Oxide Electrochemical Cell and Subsequent Reduction to Ni-YSZ A.L. Manalo and R.B.M. Cervera	123
Effect of Modified Natural Rubber on Morphology, Chemical Structure, and Crystallinity of Electrospun Polyvinylidene Difluoride Nanofibers J.R.S. Bello, B. Pajarito and J.V.D. Perez	128
The Features of a High-Temperature Synthesis of ZrO₂ in a Core-Shell ZrO₂@C Structure A.M. Volodin, V.O. Stoyanovskii, V.I. Zaykovskii, R.M. Kenzhin and A.A. Vedyagin	133
Preparation of Poly(Acrylic Acid) Crosslinked-Gold Nanoparticles for Colorimetric Detection of Analytes E.R. Wikantyasning, M. Mutmainnah, G. Ramadhan, Z. Choliso and M. Da'i	138
Features of the Carbon Nanofibers Growth over Ni-Pd Catalyst Depending on the Reaction Conditions C. Wang, Y.I. Bauman, I.V. Mishakov and A.A. Vedyagin	144
Synthesis of Silver-Doped Titanium Dioxide Nanotubes by Single-Step Anodization for Enhanced Photodegradation of Acid Orange 52 E.C.R. Lopez, J.D. Ocon and J.V.D. Perez	149
Influence of Carbon Black Pore Former on the Synthesis of LSM-YSZ Composite Electrode Material via Solid-State Reaction and Glycine-Nitrate Process A.B. Benipayo and R.B.M. Cervera	154
Investigation on Varying Aluminum Doping Concentrations and Sintering Temperatures on the Synthesis of Garnet Li₇La₃Zr₂O₁₂ solid Electrolyte via Modified Pechini Method B.J. Alfaro and R.B.M. Cervera	160
Composite Nanostructures for Enhanced Plasmonics H. Joshi, S. Choudhary and S. Annapoorni	165
Material of High Temperature Heat Exchanger in Fuel Cell System Z.H. Zhang, L.M. Ba, C.F. Li, X. Li and Q. Guo	170
Finite Element Analysis of Mechanical Properties of 2.5D Woven Composites F.B. Lin and G.W. Wang	175
Synthesis and Functionalization of Filamentous Carbon Material via Decomposition of 1,2-Dichlorethane over Self-Organizing Ni-Mo Catalyst Y.I. Bauman, L. Kibis, I.V. Mishakov, Y. Rudneva, V.O. Stoyanovskii and A.A. Vedyagin	180
New Trends in Automotive Exhaust Gas Purification Materials: Improvement of the Support against Stability of the Active Components A.A. Vedyagin, V.O. Stoyanovskii, R.M. Kenzhin, P.E. Plyusnin, Y.V. Shubin and A.M. Volodin	185
Study on Thermal Stability of Ceria-Supported Rhodium Catalysts R.M. Kenzhin, E.A. Alikin, S.P. Denisov and A.A. Vedyagin	190
Comparing the Effects of Ultrasonic System of the EDM Process on Machining Cemented Carbide B. Chongkolnee and C. Praneetpong	195
Dynamic Behavior of FGM Doubly Curved Panel due to Mechanical Loading G.P. Zou and N. Dergachova	200
