Table of Contents

Preface

Chapter 1: Research and Development of Metalworking and Assembling Technologies in the Engineering Industry

Providing Cyclic Robustness of Bolted Joints in Case of Assembly with Implementation of Anaerobic Materials
I.I. Voyachek, M. Sága, Z. Ságová, D.V. Kochetkov, V.Z. Zverovschikov and A.I. Korshunov 3

Geometric Reconstruction of the Drawn Tube Shape
A. Görög, I. Görögová and M. Martinkovič 13

Solving Selected Problems with Ultrasonic Surface Strengthening of Metal Components
M. Králik and V. Jerz 22

Analysis of 1.4571 Chrome-Nickel Steel Properties after Cold Forming by Bending
D. Stančeková, M. Michalková, M. Sapieta, M. Šajgalík and M. Janota 29

Mathematical Description of Semi-Solid Magnesium Alloys Behaviour by Using Rheological Models
M. Ślęzak 37

Manufacturing Component Base Broadening in the Flexible Manufacturing System by Using a Group Technology
P. Košťál, A. Mudriková, S. Václav, D. Michal, Š. Lecký and R.D. Cazañas 45

Study on Wall Heights and Surface Roughness of Spun Cups Produced of Metal Blanks by Multipass CNC Spinning Technology
M. Frnčík, J. Šugárová, P. Šugár, I. Görögová and M. Sahul 55

Productivity Considerations in Face Milling
J. Kundrák, V. Molnár, I. Deszpoth and T. Makkai 66

Effect of Natural Aging on Mechanical Response of the Artificially Aged EN AW 6063 Aluminium Alloy
M. Fujda, M. Matvija and M. Glogovský 74

Effect of Pre-Straining and Natural Aging on the Hardening Response during Artificial Aging of EN AW 6082 and Lead Free EN AW 6023 Aluminium Alloys
M. Fujda, M. Matvija and P. Horňak 82

Development of Equipment for Mass Cataphoresis Painting
K. Hylák, Z. Matuška, P. Drašnar, J. Kudláček and J. Horník 92

Laser Hardening of Large Cast Iron Castings and their Diagnostics Using Magnetic Spot Method
B. Skrbek and V. Nosek 99

Adhesion Determination of Thin Wear Resistant Coatings
M. Hagarová, D. Jakubéczyová, G. Baranová and M. Eliáš 107

Determination of the Open Risers more Effective Zone for Steel Wheel Casts
L.H. Suárez Lisca, D.R. Delgado Sobrino and N.I. Coello Machado 114

Rational Provision of Functional Properties of Interference Fit Joints in Case of Assembly with Implementation of Anaerobic Materials
I.I. Voyachek, D.V. Kochetkov, D.R. Delgado Sobrino, S.G. Mityasov, V.Z. Zverovschikov, R. Ružarovský and J. Horník 123

Chapter 2: Properties and Production Technologies of Polymers

The Strength Study of Ultrasonically Welded Thermoplastic
L. Sýkorová, O. Šuba, M. Žaludek and M. Kubišová 135

Comparison of Selected Thermoplastic Materials in the Fused Deposition Modeling Process and their Influence on the Dimensional Accuracy of an Orthodontic Upper Teeth Model
J. Milde and F. Jurina 143

Assembly Tool Manufacturing and Optimization for Polylactic Acid Additive Manufacturing
Š. Lecký, S. Václav, D. Michal, R. Hrušecký, P. Košťál and I. Molnár 153

Measurement of Modified Surface Properties (Micro-Creep) of Polyamide by Modern Indentation Method
M. Ovsik, M. Stanek, A. Dockal, M. Manas and L. Hylova 163

Improving Surface Properties of Linear Polyethylene by Radiation Measured by Ultra-Nano Indentation Test
M. Ovsik, M. Stanek, A. Dockal, M. Reznicek and L. Hylova 172

Influence of Nano-Filler Type on Technological Processing and Resulting Mechanical Properties
M. Reznicek, D. Měřínská, M. Ovsik, M. Stanek, A. Dockal and K. Kopecka 180

The Influence of Mould Cavities´ Surface Structure on their Contamination when Processing Polymers
D. Shejbalova and Z. Dvorak 188

Fluidity of Rubber and TPE Influenced by Mold Surface Roughness
M. Stanek, M. Ovsik, M. Manas, M. Reznicek and P. Fluxa 198

Analysis of the Problem of Granulated Material Movement in the Production Process
M. Bučányová, M. Kusa and M. Matúšová 207

The Design of Melting Units for Production of Synthetic Fibrous Materials by Vertical Blowing Method from PET Raw Materials
V. Sviatskii, A. Mudriková, R. Holubek, J. Horník and M. Sokolov 216

Medical Applications of Biomaterials: The Case of Design and Manufacture of Orthopedic Corsets Made of Polylactic Acid by Additive Manufacturing
I. Molnár, L. Morovič, D.R. Delgado Sobrino, Š. Lecký and D. Michal 223

Chapter 3: Computational and Numerical Methods in Materials Science and Production Technologies

The Research of Influence of Strain Rate in Steel Tube Cold Drawing Processes Using FEM Simulation
M. Kapustova and R. Sobota 235

Evaluation of a Tyre Tread Pattern Stiffness Using FEA
J. Kledrowetz, J. Javořík and R. Keerthiwansa 243

Computer Modeling Application of Fluid Outflow from Vessels
H. Kraváriková 250

Numerical Study of Material Degradation of a Silicone Cross-Shaped Specimen Using a Thermodynamically Consistent Mooney-Rivlin Material Model
R. Jerábek and L. Écsi 258

Statistical Point of View on Polymer (Nano) Composite Preparation
D. Měřínská, V. Pata, M. Kubišová and L. Sýkorová 267

Secondary Biaxial Data Application in a Process of a Hyperelastic Material Characterization
R. Keerthiwansa, J. Javořík and J. Kledrowetz 275

Chapter 4: Engineering Practice of Measurements, Assessment and Analysis of Properties and Quality in Industry

A Novel Method for Non-Invasive Imaging for Medicine and Material Testing
D. Krčmařík, O. Novák and M. Petrů 285

Generating of STL Models of Plastic Part and its Effect on the Final Accuracy in Computed Tomography
M. Kritikos Samardziova 295

Nonconformities with Material Aspects in Management Systems
V. Pelantová 305

Design of an Inertial Measuring Unit for Control of Robotic Devices
E. Škultéty, E. Pivarčiová and L. Karrach 313

Contactless Detection of Contaminants by UV-VIS Luminescence Spectroscopy
P. Drašnar, M. Zoubek, P. Chábera, J. Havel and P. Hlavín 323

Analysis of the Assembly Joint at Deformation of Matched Objects
M. Bučányová, M. Matúšová and E. Hrušková 330

Development and Implementation of Combined Structuroscopes for Dispersion Metallic Materials
B. Skrbek and V. Nosek 339

Applicability of Measurements of Local Electrical Parameters in the Modeling of Technological Texture of Ceramic Blanks
T. Kozík, S. Minárik, P. Kuna and M. Kubliha 346

Mathematical Model for Improvement of Concrete Quality
K. Domnina and E. Pivarčiová 356
