# **Preface**

It has been my pleasure to have been involved with the 4th International Conference on Frontiers of Composite Materials (ICFCM2019) for 4 years now (Auckland New Zealand, Melbourne (Monash University, Melbourne Australia), Sydney (University of Technology, Sydney), and in 2019 hosted by my home institution (University of Queensland, UQ, Brisbane Australia). While it is a relatively small meeting, I always enjoy the multidisciplinarity and also the International flavour.

And the 4th joint International Conference on Energy Engineering and Smart Materials (ICEESM-2019) were held in Trinity College Dublin, University of Dublin, Ireland during June 22-24, 2019. The conference programme included the invited talks as well as oral and poster presentations from scientists working in similar areas to establish platforms for collaborative research projects. The conference covered recent trends and advances made in the fields of energy engineering, green technology and smart nanomaterials.

The major goal and feature of the conference is to bring academic scientists, engineers and industry researchers together to exchange and share their experiences and research results, and to discuss the practical challenges encountered and the solutions adopted. This year 54 participants from Ireland, France, Spain, Canada, Russia, Lebanon Japan, China, Indonesia, Australia, America, South Korea, UAE, Saudi Arabia, Czech Republic, Poland, Phillipines, Thailand, Malaysia and India met on the conferences to share ideas and concepts in the broad area of composite materials. This year we also ensured gender equity in both the keynotes and the technical sessions – a first for this meeting!

The quality of the science and presentations is improving each and every year, and the breadth of topics now sees nanocomposites, composites for building materials, energy storage and renewable composites embedded as major themes at this meeting.

We hope that this collection of papers will be useful for the wide range of scientists and engineers from various areas of engineering and material sciences.

Sincerely,

Prof. Darren Martin, Conference Chair of ICFCM2019 Prof. Tatiana Perova, Conference Chair of ICEESM2019

# **Conference Committees**

### **Conference Committee Chairs**

Darren Martin, University of Queensland, Australia Ramesh K. Agarwal, Washington University in St. Louis, USA Jordi Llorca, Barcelona Research Center in Multiscale Science and Engineering, Spain Tatiana Perova, Trinity College Dublin, Ireland

## **Program Committee Chair**

Jiazhao Wang, University of Wollongong, Australia Yuri Gounko, Trinity College Dublin, Ireland Sarah McCormack, Trinity College Dublin, Ireland

### **International Technical Committees**

Agus Arsad, Universiti Teknologi Malaysia, Malaysia

Ai-Bao Chai, University of Nottingham Malaysia Campus, Malaysia

Alaa El-Din Ali El-Shafei, Mansoura University, Mansoura, Egypt

Asad A Khalid, Universiti Teknologi Brunei, Brunei Darussalam

Blanka Tomková, Technical University of Liberec, Czech Republic

Carlos Rolando Rios-Soberanis, Centro de Investigación Científica de Yucatán, México

Chi-Wai Kan, The Hong Kong Polytechnic University, Hong Kong

Dongbin Wei, University of Technology Sydney (UTS), Australia

G. Rajarajan, Hindustan Institute of Technology & Science (Deemed to be University), India

Guang-Min Luo, National Kaohsiung University of Science & Technology, Taiwan

Irshad Ahmad, American University of Ras Al Khaimah, UAE

Juliana Anggono, Petra Christian University, Indonesia

Lilly Mercy, Sathyabama University, India

Mochamad Chalid, Universitas Indonesia, Indonesia

Muhammad Abbas Ahmad Zaini, Universiti Teknologi Malaysia, Malaysia

Nikoloz Jalabadze, Georgian Technical University in Tbilisi, Georgia

Nilofar Asim, National University of Malaysia, Malaysia

Norhazilan Md. Noor, Universiti Teknologi Malaysia, Malaysia

P Bílý, Czech Technical University in Prague, Czechia

Patricia Sanmartín Sánchez, Universidade de Santiago de Compostela, Spain

Redzuan Abdullah, Universiti Teknologi Malaysia, Malaysia

Siti Rahmah Aid, Malaysia-Japan International Institute of Technology (MJIIT), Universiti Teknologi Malaysia, Malaysia

Theodoros C. Rousakis, Democritus University of Thrace (D.U.Th.), Greece

Vijay Sekar K.S., SSN College of Engineering, India

Xiangjiang Liu, Zhejiang University, China

Yanisa Laoong-u-thai, Burapha University, Thailand

Zahira Yaakob, Universiti Kebangsaan Malaysia, Malaysia

Yu-Cheng Chen, EPS Bio Technology corp, Taiwan

Sathyashankara Sharma, Manipal Institute of Technology, Manipal, India

Gowri Shankar, Manipal Institute of Technology, Manipal, India

Young Kwon, Naval Postgraduate School, USA

Wassanai Wattanutchariya, Chiang mai university, Thailand

Hind Ahmed, Trinity College Dublin, Ireland

Hoda Akbari, Trinity College Dublin, Ireland

Subhash Chandra, Trinity College Dublin, Ireland

Ipek Guler, Cankaya University, Turkey

Yasir Hashim, Ishik University, Iraq

Jaroslaw Jakubowicz, Poznan University of Technology, Poland

Mohd Rafie Johan, University of Malaya, Malaysia

Yee Hooi Min, Universiti Teknologi MARA, Malaysia

Daniel Kehoe, Trinity College Dublin, Ireland

Bojan A. Marinkovic, Pontifical Catholic, University of Rio de Janeiro, Brazil

Alexander Pesin, Nosov Magnitogorsk State Technical University, Russia

E.M. Koltsova, D. Mendeleev University of Chemical Technology of Russia (MUCTR), Russia

Evgeny V. Zharikov, D. Mendeleyev University of Chemical Technology of Russia

Petr Bílý, Czech Technical University in Prague, Czech Republic

Carlos Rolando Rios Soberanis, Centro de Investigación Científica de Yucatán, México

Wigar Hussain Shah, International Islamic University, Pakistan

Zhe Xu, Dartmouth College, USA
