Preface

Dear Colleagues:

We are pleased to bring into your attention the Special Issue hosting selected and peer reviewed papers from the XI International scientific-technical conference "Micro- and nanotechnology in electronics" (ISTC MNTE), held in Kabardino-Balkarian State University, Nalchik, Russia.

Running this conference for eleven years, we have got the experience gathering together scientists, engineers and companies working in many different kinds of materials towards some very interesting applications in micro- and nanoelectronics; thus, ISTC MNTE offers the cross-disciplinary environment to develop and organize innovative ideas and projects of the science and engineering.

People from the different countries are meeting for relevant discussions their research interest and the development of common projects. We encourage such mutual coherence by organizing a program, permitting for useful meetings in a friendly and relaxing environment.

Conference materials integrate the study of materials and structures, thin-film technology, sensors and IT. These works offer new concepts and solutions in different fields of micro- and nanotechnology.

The current issue presents results of research on nano- and microelectronics that can be used to creation of technologies for the different application areas.

Dr. Akhmed Karmokov Dr. Oleg Molokanov Guest Editors

Nalchik, December 2019

Committees

Organizing Committee

- Dr. Akhmed Karmokov, Kabardino-Balkarian State University chairman of the organizing committee
- Dr. Oleg Molokanov, Kabardino-Balkarian State University deputy chairman of the organizing committee

Program Committee

- Dr. Yuri Altudov, Kabardino-Balkarian State University co-chairman of the technical committee
- Dr. Barasbi Karamurzov, Kabardino-Balkarian State University co-chairman of the technical committee
- Dr. Oleg Krokhin, Russian Academy of Sciences co-chairman of the technical committee
- Dr. Viktor Bykov, Nanotechnological Society of Russia co-chairman of the technical committee
- Dr. Mahammad Babanly, Azerbaijan National Academy of Sciences member of the technical committee
- Dr. Alexander Gulyaev, National Research University "Moscow Power Engineering Institute" member of the technical committee
- Dr. Ibragimkhan Kamilov, Russian Academy of Sciences member of the technical committee
- Dr. Nikolay Kargin, National Research Nuclear University MEPhI (Moscow Engineering Physics Institute) member of the technical committee
- Dr. Alex Laihtman, Holon Institute of Technology member of the technical committee
- Dr. Viktor Luchinin, Saint Petersburg Electrotechnical University "LETI" member of the technical committee
- Dr. Johann Marton, Stefan Meyer Institut in Vienna member of the technical committee
- Dr. Irina Miroshnikova, National Research University "Moscow Power Engineering Institute" member of the technical committee
- Dr. H. Orth, Gesellschaft für Schwerionforschund mbh member of the technical committee
- Dr. Anatoly Popov, National Research University "Moscow Power Engineering Institute" member of the technical committee
- Dr. Sadiyar Ragimov, Azerbaijan National Academy of Sciences member of the technical committee
- Dr. Stanislav Rembeza, Voronezh State Technical University member of the technical committee
- Dr. Boris Seleznev, Novgorod State University member of the technical committee
- Dr. Aleksandr Smirnov, Belarusian State University of Informatics and Radio-electronics member of the technical committee
- Dr. Azmet Shebzuhov, Kabardino-Balkarian State University member of the technical committee
