Preface

Chapter 1: Semiconductors and Metal Compounds for Microelectronics

Galvanomagnetic Properties of Cd₃As₂- MnAs (MnAs - 20%) System in Transverse Magnetic Field at Hydrostatic Pressure up to 9 Gpa L.A. Saypulaeva, S.B. Abdulvagidov, M.M. Gadjaliev, A.G. Alibekov, N.S. Abakarova, N.V. Melnikova, V.S. Zakhvalinsky, A.I. Ril' and S.V. Marenkin	3
Conductivity Studies of Glasses for Electronics Z.V. Shomakhov, D.O.A. Molokanov, A.M. Karmokov, O.O. Molokanova, A.O. Ozhiganova and J.Y. Goncharenko	9
Investigations of Crystalline Phases in Glasses under Various Annealing Conditions Z.V. Shomakhov, A.M. Karmokov, D.O.A. Molokanov, O.O. Molokanova, R.Y. Karmokova, L.V. Tret'yakova and O.V. Matuzaeva	14
The Influence of Structural and Phase Changes on the Thermoelectric Properties of PbTe Doped with CdSe R. Kalmykov, A.M. Karmokov and Z. Ansokova	20
The Effect of Doping of Lead with Lithium and Zinc with Strontium on the Kinetics and Phase Formation in a Number of Low-Melting Eutectic Systems User in Electronics and Heat-Transfer Agents A.M. Bagov, A. Akhkubekov, S. Akhkubekova and T.Z. Kumukova	26
Interphase Characteristics of Alkali Chlorides with Impurities of Ag, Sn, Cu A.K. Dysheкова, A.M. Karmokov, Z.V. Shomakhov, A.D. Kostyukov and I.P. Shumeiko	31

Chapter 2: Surfaces and Thin-Film Structures

Morphology and Composition of Lead-Cadmium Sulfide Photo-Sensitive Films I.N. Miroshnikova, L.N. Maskaeva, B.N. Miroshnikov, V.S. Belov and I.V. Vaganova	39
Influence of Annealing on the Electrophysical Properties of Copper Oxide (II) Thin Film, Prepared by Sol-Gel Method D.S. Permyakov, S.I. Rembeza, T.G. Menshikova, V.E. Polkovnikov and M.A. Belykh	48
Annealing Effect on the Composition and Electrophysical Properties of N-Type Silicon Surface K. Bzhikhatlov and V. Luev	53
The Effect of Aluminum Dopant Amount in Titania Film on the Memristor Electrical Properties A.N. Bobylev, S.Y. Udovichenko, A.N. Busygin and A.H. Ebrahim	59
PZT Thin Films on Silicon Substrates: Formation and Research of Properties V.V. Petrov, Y.N. Varzarev, A.S. Kamentsev, A.A. Rozhko and O.A. Pakhomova	65
Electrophysical Properties of Metal Oxide Films Fabricated by Using Spray Pyrolysis V.E. Polkovnikov, S.I. Rembeza, T.G. Menshikova, D.S. Permyakov and M.A. Belykh	71
Study of Structure and Composition of Lead Sulfide Nanostructured Films Doped by Cadmium and Iodine Ions A.D. Kutyavina, L.N. Maskaeva, V.I. Voronin and V.F. Markov	78
Study of Desorption Products under Laser Irradiation of the Surface of Organic Films A.M. Turiev, I.V. Tvauri and A.T. Shanaeva	84

Chapter 3: Nanomaterials and Nanostructures for Microelectronics

The Relationship between Entropy and the Reliability Function in Application of Physical and Statistical Approach to Nanosystems V.S. Kozhevnikov, I.V. Matyushkin and N.V. Chernyaev	93
---	----

Influence of Pressure on the Melting Temperature in the Contact of Expanded Nanofilms and Nanoparticles Used in Electronics A. Akhkubekov, S. Akhkubekova, O. Gudiyeva, Y. Kasumov and V.A. Sozaev	112
Evaluation of Possible Isotopic Effects for Cavitational Carbon Nanoforms S. Voropaev and N. Dushenko	117
Chromium-Nickel Alloy for the Synthesis of Carbon Nanoparticles Z.M. Khamdokhov, Z.K. Kalazhokov, R.S. Teshev and K.H. Kalazhokov	123
Features of the Conduction Mechanism through an Indium Antimonide Quantum Dot in the Analysis of Tunneling Current-Voltage Characteristics M.V. Gavrikov, V.F. Kabanov and A.I. Mikhailov	130
Analysis of Carbon Nanomaterials Produced by the Electric Arc Methods Z.V. Shomakhov, A.M. Apekov, A.K. Dyshekova, M.K. Beshaliev, A.S. Ksenofontov, S.M. Arvanova, A.M. Karmokov and M.I. Ozhiganova	136

Chapter 4: Integrated Devices and Systems

Study of Characteristics of HEMT-Transistors Based on AlGaIn/GaN Heterostructure A.V. Zhelannov, B.I. Seleznev and D.G. Fedorov	149
Solar Energy Converter into the Electric Energy Based on Perovskite E.N. Kozyrev, I.N. Goncharov, T.T. Magkoev, R.O. Askerov and D.Z. Pizhelauri	155
The Influence of Catalysts on the Gas Sensitivity of a Gas Sensor Based on SnO₂ Films + 1 % at. Si T.A. Perepechina, S.I. Rembeza, T.V. Svistova, E.S. Rembeza and V.A. Buslov	161
Determination of Trace Elements in Liquid Media by the Impedance Method B.D. Khastshev, O.V. Olisaeva, R.B. Ambalov and V.V. Techiev	170
