

Table of Contents

Fabrication and Characterization of Composite Materials Using Multiple Waste Materials (Leather & Jute Fabrics) and Unsaturated Polyester Resin M.F. Ali, M.S. Hossain, S. Ahmed and A.M.S. Chowdhury	1
The Effect of Nanoparticles (n-HAp, n-TiO₂) on the Thermal Properties and Biomechanical Analysis of Polymeric Composite Materials for Dental Applications A.A. Mohammed, J.K. Oleiwi and E.S. Al-Hassani	13
Electronic, Vibrational, and Structural Study of Polysaccharide Agar-Agar Biopolymer A. Pandey, A.K. Gupta, S. Gupta, S.K. Gupta and R.K. Yadav	35
Liquid-Phase Exfoliation of Graphene in Organic Solvents with Addition of Picric Acid S.S.A. Shah, H. Nasir and S. Honey	47
New Results on Diffusion in Graphene Nanostructures for Sensoristics P. Di Sia	61
Study of the Effect of Physical Aging on the Polylactic Acid by Thermal and Optical Techniques A. Bouamer, N. Benrekaa and A. Younes	73
Dynamic Behavior Study of Functionally Graded Porous Nanoplates H.M. Adda, B. Ali and M. Slimane	83
Far Infrared Laser Detector Based on Multi-Walled Carbon Nanotubes and Blend of (Polyaniline - Polymethyl Methacrylate) Polymers with Methyl Blue Dye for Photoconductive Applications W.R. Saleh, S.M. Hassan, S.Y. Al-Dabagh and M.A. Marwa	93
Nonlinear Vibration and Stability Analysis of Functionally Graded Nanobeam Subjected to External Parametric Excitation and Thermal Load F. Shayestenia, M. Janmohammadi, S. Sadatsakkak and M. Ghadiri	105
