## Foreword

<b>Evidence for Soliton Dynamics in Alkali Adlayers on Transition Metals</b> C. Kleint	1
<b>Investigation of Surface Diffusion by Analysis of Field Emission Current Fluctuations</b> J. Beben	17
<b>The Cross-Correlation Function of Field Emission Flicker Noise and its Applications to Surface Diffusion</b> A.M. Dabrowski	39
<b>Critical Review of Surface Diffusion Parameters of Potassium on Tungsten</b> R. Meclewski	49
<b>Work Function, Structure and Phase Transitions of Lithium on Tungsten</b> T. Biernat	61
<b>Structure Determination of Crystal Surfaces by Electron Diffraction</b> C. Ammer	73
<b>Step Propagation on Alkali Halide Cleavage Faces due to Thermal Excitation and Photon-Enhanced Sublimation</b> H.-. Höche	87
<b>Morphological Changes in Systems of Gold Particles on Cleavage Faces of Rocksalt Caused by Particle Motion</b> R.U. Abelmann	103
<b>Thermal Desorption Spectroscopy of Hydrogen from Methanol on Silicon (111) 7X7 - Spectrum Simulation</b> K.D. Brzoska	115
<b>Visible Local Instabilities of the FIM Image of Metal Surfaces</b> S. Surma	129
<b>Angular Distribution of Auger Electron Emission from Low-Index Nickel Faces</b> S. Mróz	139
<b>Photofield Emission Spectroscopy of Optical Transitions in the Band Structure of Metals</b> T. Radon	153
<b>Experimental Confirmation of Two Close Bulk States in the &lt;100&gt; Band Structure of Tungsten</b> T. Radon and S. Jaskolka	163
<b>Sputter Profiling of a Catalysis-Poisoned PtRh10 Alloy in a Semiquantitative Approach by Auger Electron Spectroscopy</b> S. Kaszczyszyn, A. Grzeszczak and Z. Prazuch	167
