

Table of Contents

Theoretical Aspects of the Electrical Conduction of Polymers J. Przyluski	1
Electronically Conducting Polymers: Introduction J. Przyluski	44
Electronically Conducting Polymers: Polyacetylene J. Przyluski	50
Electronically Conducting Polymers: Heterocyclic Polymers J. Przyluski	87
Electronically Conducting Polymers: Polyaniline J. Przyluski	93
Electronically Conducting Polymers: Polypyrrole J. Przyluski	120
Electronically Conducting Polymers: Polythiophene J. Przyluski	176
Electronically Conducting Polymers: Polyindole and Polyazulene and Polyfuran J. Przyluski	199
Ionic Conducting Polymers J. Przyluski	208
Polymer Heterosystems J. Przyluski	263
Applications: Applications - Batteries - Cells J. Przyluski	294
Applications: Photochemical Devices J. Przyluski	348
Applications: Sensors - Molecular Electronics - Organic Superconductors J. Przyluski	373
