Introduction and Announcement

Chapter 1: Aluminium and Aluminium Alloys

Proeutectic Crystallisation of AlSi17Cu5 Alloy after Overheating and Modification with Al-CuP Master Alloy J. Piątkowski	3
Effect of Overheating on the Mechanical and Plastic Properties of A390.0 Cast Alloy J. Piątkowski	9
Welding of Aluminium Alloy Thin Sheets Using Variable Polarity MIG Method J. Adamiec and T. Pfeifer	15
Effect of Ti Addition to Zn Filler Metal on Wettability and Reinforcement of Soldered Joint of Aluminum M. Różański and J. Adamiec	23
CMT Robotized Welding of Thin-Walled Joints Made of 7xxx Series Aluminium Alloy J. Adamiec and J. Rykała	31
Effect of Electrode Negative Ratio in AC MIG Welding of Aluminium Alloy 6082 on the Microstructure and Properties of Heat Affected Zone J. Adamiec and T. Pfeifer	39
Hybrid Composites Shaped by Casting Methods A.J. Dolata	47
Fine Particle Reinforced Composites Obtained by Suspension Method M. Dyzia	53
Assessment of the Deformation of Composites with Aluminum Matrix Designed for the Metal Forming J. Myalski, A. Płachta and J. Wieczorek	57

Chapter 2: Magnesium and Magnesium Alloys

The Microstructure of Elektron21 and WE43 Magnesium Casting Alloys after Subsequent Melting Process Operations B. Dybowski, A. Kielbus, R. Jarosz and J. Paśko	65
The Quality of Produced Sand-Cast Engine Block Made from Elektron 21 Magnesium Alloy M. Stopyra, R. Jarosz and A. Kielbus	71
The Microstructural Changes after Thermal Shock Applied on Elektron 21 Magnesium Alloy I. Pikos, A. Kielbus and J. Adamiec	77
High-Cycle Fatigue Life of AZ31 and AZ61 Magnesium Alloys M. Cieśla	83
Investigation of Stress Corrosion Cracking in Magnesium Alloys B. Chmiela, A. Mościcki and M. Sozańska	89
Potentiodynamic Tests of Magnesium Alloy AZ31 with Lithium Additive J. Przędziona, W. Walke, E. Hadasik and S. Lalik	93
Microstructure of WE43 Magnesium Matrix Composite Reinforced Ceramic Particles T. Rzychoń, M. Dyzia and I. Pikos	101
Microstructure of Magnesium Alloy ZRE1 Glassy Carbon Composite Interface A. Olszówka-Myalska, W. Maziarz and A. Botor-Probierz	109

Chapter 3: Titanium and Titanium Alloys

Aluminium Evaporation from Titanium Alloys in the VIM Process B. Oleksiak, L. Blacha, L. Pikna and R. Burdzik	117
---	-----

Multi-Stage Heat Treatment of Second Generation TiAl Based Alloys A. Szkliniarz and W. Szkliniarz	129
Diffusion Vacuum Brazing of TiAl₄₈Cr₂Nb₂ Casting Alloys Based on TiAl (γ) Intermetallic Compound Using Ag-Cu-Ti Braze Alloy M. Różański, K. Krasnowski and J. Adamiec	141
The Stress Effects Occurring During Induction Heating of Titanium R. Przylucki and S. Golak	149
