Preface

Chapter 1: Structural Metals and Machining Technologies

A Modified Peric Model for Al-Mg Alloy Sheet with Rate-Independent Initial Yield Stress at Warm Temperatures Y. Zhang, Q. Zhang, Y.T. Sun and X.R. Qin	3
Application of Multiple Methods of NDT for the Evaluation of Welded Joints in a Steel Bridge ASTM-A-588 H.C. Terán, O. Arteaga, F.S. Alcocer, R.R. Navas, S.P. Mena and E.A. Cárdenas	8
Physical-Mechanical Characterization Applied to the Adhesion of Electrolytic Metal Chromium Plating on Bus Rims Surfaces M.A. Lara, M.A. Carvajal, O. Arteaga, H.C. Terán, R.R. Navas, G.R. Torres and S.M. Espín	13
Microstructure, Texture and Mechanical Properties of Al Alloy A380 Prepared by Directional Solidification Method H. Borkar, S. Seifeddine and A.E.W. Jarfors	18
On the Prediction of Residual Magnesium and Nodularity in Ductile Iron by Thermal Analysis S. Boonmee, K. Worakhut, A. Utsajai, N. Mai-Ngam and S. Rassamipat	24
Effects of Machining Parameters on Surface Roughness when Ultra-High Precision Diamond Turning RSA443 Optical Aluminum Z. Mkoko and K. Abou-El-Hossein	30
Modern Manufacturing of Miniature Gears K. Gupta	35
Geometric Modeling and Manufacturing Method for a few Teeth Involute Gear with Bilateral Modification Q. Sun, Y.H. Sun and X.L. Ge	40

Chapter 2: Polymers, Composites and Chemical Technologies

Ballistic Performance Study of Kevlar29 Fibre Reinforced Polyester Composite R. Sangamesh, H. Shivashankar, K.S. Ravishankar and S.M. Kulkarni	49
HDPE/TiO₂ Nanocomposite: Fabrication and Optimization of Mechanical Property by RSM and ANN M.S. Mozumder, A. Mairpady and A.I. Mourad	54
Effect of Ga and Gd as Catalyst in ZnO/Reduced Graphene Oxide Composites upon Photodegradation Process S. Sangjan, R. Saetan and A. Aoboun	59
Experimental Description of Aging of Coconut Shell Powder/Epoxy Composite P. Valášek and K. Habrová	64
Adsorption and Photocatalytic Kinetic of Wastewater Treatment by Photocatalyst - Alginate/Polyvinyl Alcohol Composite Beads S. Sangjan and K. Ponsanti	69
Zinc Oxide Nanostructures Fabricated under Extremely Non-Equilibrium Plasma Conditions O. Mangla and S. Roy	75
Prediction of Sulfur Content in Desulfurization Process Using a Fuzzy-Logic Based Model H.A. Al-Jamimi	80
Effect of Volume Fraction and Resin System on Tensile, Compression and Flexural Strength of Electrical Glass Fiber Reinforced Plastic Laminate M. Murthy, K.M. Babu and M. Jebraj	86
