

Table of Contents

Preface

Chapter 1: Coatings and Surfaces

A One-Step Pack Cementation Method for Preparing AlN/Aluminizing Coating with Good Corrosion Resistance X.Y. Wang, J.J. Du and Z.W. Ma	3
Optimization of Thermal Spray Parameters of NiAl/Cr₂C₃ Coating by Taguchi Method M. Tahari, B. Luo, J. Geng, D. Jing and M. Hatami	9
Influence on the Microstructure of Laser Cladding NiCrBSi Coatings with Electromagnetic Compound Field L.L. Zhai, J.W. Zhang and C.Y. Ban	15
Effect of Micro-Zone pH Gradient on AM60B Vanadate Film and Corrosion Behavior H.B. Jing, Z.D. He and S.Q. Jia	21
Reliability of AFC Chain through Galvanizing C.L. Scott and R.G. Metcalfe	29

Chapter 2: Metallography and Metal Processing

Microstructure and Mechanical Properties of Copper-Iron Fabricated by Mechanical Milling and Continuous Sintering L. Anggraini, A. Suhandi and R. Rachmat	37
High Performance Unalloyed Ductile Cast Iron with Multiphase Structure W.T. Zhou, C. Yang, X.X. Cui, Z.Y. Liang, X. Wang, D.O. Northwood and C. Liu	43
Strengthening Mechanism and Thermal Stability of Spray Formed H13 Steel Z.Z. Zhang, W.Z. Wang, Y.B. Chen, M.H. Wang, C.D. Zhao, X.Y. Ge, K.W. Gao and J.M. Liang	49

Chapter 3: Tools and Processes of Metalworking

Research on Cutting Stability of High-Efficiency Micro Turn-Milling Compound Machine Tool Based on Lobes Z.P. Zheng, X. Jin, Y.W. Sun, X.Y. Jiang, Z.J. Zhang and B.B. Liu	59
Research on Modal Analysis of Precision Micro Slitting Turn-Milling Machine Tool Based on Hammer Experimental Method Z.P. Zheng, X.Y. Jiang and X. Jin	67
Prediction of Regeneration Chatter Stability of Composite Boring Bar Y.S. Ren, J.S. Tian, Y.H. Zhang and J.M. Ma	73
Design of Streamline Dies for Drawing Driven by Fracture S. Alexandrov, E. Lyamina and P.P. Date	85

Chapter 4: Materials Physics and Thermal Insulation Materials

The Photoluminescence Spectra Research of SiC Thin Film under Different Sputtering Powers C. Zhao, M. Zhao, S.Y. Lv, Q.J. Liu and G.J. Xing	93
Angle-Resolved Spectroscopy Study of Ni-Based Superconductor SrNi₂P₂ Y.-. Yan	99
Effect of Fly Ash Pre-Sintering Temperature on Adiabatic Foam Fabricated by Sodium Silicate Y. Li, H.Z. Zhao and X.D. Cheng	105
