

Table of Contents

Preface

Chapter 1: Cement Based Binders

Study of Development of Hydrating Temperatures and Reduction of Volume Changes in Concretes

O. Pikna, M. Čažký, R. Hela and K. Křížová 3

Hydration and Microstructure of Nano Modified Cement Paste

G. Skripkiūnas, E. Karpova, R. Drochytka and J. Hodul 9

Influence of Cement Type on Stability of Concrete Mixture

M. Čažký and R. Hela 15

Changes in Crystallite Size of Tricalcium Silicate during the Laboratory Grinding

S. Ravaszová and K. Dvořák 23

Using of the Ultrasonic Method for Alkali-Silica Reaction Detection in the Cement Mortar

D. Gusak, J. Brožovský and R. Hela 29

The Development of New Chemically Resistant Material for the Invert Grouting

P. Figala, R. Drochytka and V. Černý 37

Chapter 2: Alternative Inorganic Binders

Effect of Limestone Origin on the CaCO₃ Decomposition Process and Subsequent Crystallization Process of CaO

D. Sklenářová, K. Dvořák and D.M. Koporcová 45

The Influence of Activated Dispersed Additives on Electrical Conductivity of Anhydrite Compositions

G.I. Yakovlev, E.V. Begunova, R. Drochytka, J. Melichar, I. Pudov and Z.S. Saidova 51

Conductive Metakaolin Geopolymer with Steel Microfibres

C. Mizerová, I. Kusák, P. Rovnaník and P. Bayer 59

Fly Ash-Based Geopolymer: Green Material in Carbon-Constrained Society

H.T. Nguyen and P.T. Dang 65

Evaluation on Microstructure Stability and Thermal Resistant Ability at High Temperature of Ternary-Blended Geopolymer

H.T. Nguyen 73

Chapter 3: Progressive Building Materials and Technologies

Non-Destructive Methods of Measuring Modulus of Elasticity of Building Materials and Reproducibility and Interpretation of their Results

D. Bujdoš 83

Effect of Crystallization Additives on Durability of Cement Composites in Aggressive Environments

Á. Dufka, Š. Keprdová and T. Melichar 89

Investigation of the Rheokinetic Properties and Penetration Depth of Aluminosilicate Adhesive in Pine Wood

S.G. Guziy, O. Guzii and V. Lashchivskiy 97

Possibilities of Using Pumice Concrete as Thermal Insulation Lining of Industrial Chimneys

M. Pešata, L. Procházka and J. Boháčová 105

Experimental Study of Selected Properties of Heavyweight Concrete Based on Analysis of Chemical Composition and Radioactive Elements of its Components

J. Dragomirová, M. Palou, K. Gmeling, V. Szilágyi, I. Harsányi and L. Szentmiklósi 113

The Influence of Finely Ground Limestone in the Design of Concrete for White Boxes Regarding the Suppression of Shrinkage

L. Osuská, M. Meruňka and R. Hela 119

Influence of Colloidal Silica on Final Properties of no Cement Castables	125
D. Zemánek and L. Nevřivová	
Utilization of Fly Ash in the Synthesis of Refractory Forsterite-Spinel Ceramics	131
M. Nguyen and R. Sokolař	
The Effect of Class C Fly Ash on the Water Impermeability of Brick Body	141
R. Sokolař, M. Nguyen and O. Pavelka	
Factors Influencing Mullite Formation in Refractory Grog	149
L. Nevřivová and D. Zemánek	
Hygrothermal Behaviour of Inorganic Binder-Based Board Materials	157
J. Bubeník and J. Zach	
Complex Shrinkage-Reducing Additives for Alkali Activated Slag Cement Fine Concrete	165
P.V. Krivenko, V.I. Gots, O. Petropavlovskyi, I. Rudenko and O.P. Konstantynovskyi	
Possibilities of Utilization of Waste Materials in Production of Electrically Conductive Composites on Silicate Basis	171
J. Majerová and R. Drochytka	
Material Corrosion of Tunnel Fire Protection Boards	177
D. Sklenářová, U. Diederichs, Š. Keprdová and I. Hájková
