# Table of Contents

**Preface**

Investigation of the Operational Durability of High Pressure Metal Hoses Made of Austenitic Steels  
V. Ivanov, E. Lavrova, D.P. Il’yaschenko, F. Morgay and N. Solidor  

Investigation of the Nature of Damage to Welded Flexible Compensating Elements Made of Austenitic Stainless Steels  
V. Ivanov, F.V. Morgay, E.V. Lavrova, D.P. Il’yaschenko and E. Verkhoturova  

Study on the Effects of Hydrostatic Pressure on the Structural State of Pure-Iron during Hardening Treatment with a Multiradius Roller  
V.Y. Blumenstein and K.S. Mitrofanova  

The Residual Stress Modeling in Surface Plastic Deformation Machining Processes with the Metal Hardening Effect Consideration  
M.S. Makhalov and V.Y. Blumenstein  

Resource Saving in Technologies of Extraction and Processing of Ores for Metallurgy  
D.A. Lubyanoi, E.G. Kuzin, V.N. Shahmanov and V.A. Narisky  

Features of Metallurgical Production in Small Foundries with Induction Furnaces  
D.A. Lubyanoi, E.Y. Pudov, E.G. Kuzin, O.S. Semenova and D.D. Lubyanoi  

Study of Abrasive Grains for Susceptibility to Electrostatic Field Effect  
V.S. Lyukshin, D.B. Shatko and P.A. Strelnikov  

Comparison the Preparation Methods of Powder Feedstock for Laser Powder Bed Fusion  
M.A. Khimich, E.A. Ibragimov, V.V. Chebodaeva, A.A. Saprykin, N.A. Saprykina and Y.P. Sharkeev  

Structure, Magnetic Characteristics and Stress-Strain State of Structural Steel Welded Pipelines  
N.V. Ababkov, M.V. Pimonov and E.E. Levashova  

In Situ Studies of Strain Fields in Titanium Welds under Tensile Loads by Digital Image Correlation Method  
A.A. Klopotov, M.S. Slobodyan, V.A. Klimenov, K. Kurgan and A. Ustinov  

On Mechanism of Weld Crystallization in Arc Welding with Controlled Actions  
A.D. Razmyshlyaev and M.V. Ahieieva  

Chromium-Lanthanide Multi-Ligand Complexes as Precursors of New Materials  
E.V. Cherkasova and T.G. Cherkasova  

Modeling the Influence of Mechanical Control Impacts on the Distribution of the Temperature Field in the Base Metal during Surfacing with a Strip Electrode  
E. Lavrova, V. Ivanov and D.P. Il’yaschenko  

Investigation of the Effect of Thermal Limiters on the Change in the Structure Formation of Deposited Multilayer Specimens from Steel AISI 308LSi  
D.A. Chinakhov, K.O. Akimov, A.S. Dubrovskiy and E.D. Rzaev  

Influence of Forming Graphite Skids on the Change in Hardness of Deposited Multilayer Specimens  
D.A. Chinakhov, K.O. Akimov, A.S. Dubrovskiy and E.D. Rzaev  

Heat-Induced Strength Behavior of “Steel - Wood” Composite Modified by Flame Retardant  
V.F. Torosyan and V.Y. Timofeev
