

# Table of Contents

## Preface

## Chapter 1: Polymers and Composites

<b>Preparation and Properties of VPCS/PMPS Composites</b> Q.H. Mu, D. Peng, J.H. Li and F. Wang	3
<b>Synthesis and Properties of One-Component Addition-Crosslinking Silicone Resin</b> D. Peng, Q.H. Mu, J.H. Li and F. Wang	9
<b>Effect of PC Percentages on Hardness and Notched Impact Strength of PBT/PC Blends</b> T.H.N. Pham, N.P.D. Tran, T.K. Tran, T.T. Nguyen, X.T. Vo, N.T. Tran, V.T. Tran, M.T.U. Tran and V.H. Hoang	17

## Chapter 2: Materials Processing

<b>Applying FCCCD Response Surface Method in Studying the Cutting Power of Wood Materials</b> N.H. Loc and V.T. Tran	25
---	----

## Chapter 3: Corrosion Inhibition

<b>Inhibition Effect of Aminophen Fluid Derivative on the Corrosion of 1070 Aluminum</b> R.T. Loto and C.A. Loto	35
<b>Gravimetric and Statistical Analysis of Combined Protection Performance of <i>Lavandula latifolia</i> and <i>Ricinus communis</i> on Low Carbon Steel</b> R.T. Loto, C.A. Loto and O. Olaniyan	43
<b>Gravimetric and Statistical Data Analysis of the Protection Performance of <i>Aloe vulgaris</i> and <i>Nicotiana tabacum</i> Leaf Extracts on 1070 Aluminum and Mild Steel</b> R.T. Loto, C.A. Loto and A. Israel	53

## Chapter 4: Materials and Technologies in Construction

<b>Flexural Behavior (Load-Strain Curve) of Reinforced Concrete Beams Covered by Gypsum Layers and Exposed to Elevated Temperatures</b> R.Š. Warwar and A.M.I. Said	63
<b>Predicting Effective Parameters in Cyclic Behavior of Reinforced Masonry Walls with Shotcrete Using Artificial Neural Networks</b> M.H. Baghban, S.A. Hashemi, E.S. Hashemi and M.H. Aghaei	71
<b>A Review on Mechanical Properties of Deformation Mechanism of Tubular Nanostructures: Molecular Dynamics Simulations</b> P.C. Tsai and Y.R. Jeng	79
<b>Methods of Modeling Contact between Concrete and Fiber Concrete</b> M. Vavruš and P. Koteš	87
<b>Stiffness Modulus of Aged Asphalt Mixtures</b> D. Briliak and E. Remišová	93
<b>Carbonation Depth and Chloride Ion Penetration Properties of Rubberised Concrete Incorporated Ground Blast Furnace Slag</b> M.H. Baghban, A.M. Mhaya, I. Faridmehr and F.H. Ghasan	101
