

Table of Contents

Preface

Chapter 1: Materials Development and Characterization

Variation of Semi-Solid Microstructure and Mechanical Properties of Mg_{98.5}Ni_{0.5}Y_{1.0} Alloy with Solidification Pressure S.S. Wu, S.L. Lü, X. Yang and W. Guo	3
Heat-Treatment Characteristics and Structure-Property Relationships of Thixomolded AZ91 and Ultralight LAZ771 Magnesium Alloys T.Y. Lai, S.Y. Hu, Y.Y. Kuo and T.C. Su	11
Fatigue Properties of Thixoformed Al-6wt%Si-2.5wt%Cu W.L. Beil and E.J. Zoqui	17
Comparison of Solidification Microstructure Evolution of Al-10Si and Recycled Aluminium Beverage Can Strips Made in a Strip Caster A.d.P. Lima Filho, L. Veronez Goulart Ferreira, P.B. de Oliveira Neto, R.A. Nunes de Oliveira, F. Hois and M. Borodiak	23
Characterisation of Residual Stresses of Rheocast Al Alloy E. Fracchia, I. Gattelli and M.A. Grande	31
Influence of Reinforcement Particle Parameters on the Homogeneity of Particle Distribution in Semi-Solid Formed Aluminium Matrix Composites M. Speth, K.R. Riedmüller and M. Liewald	39
Mechanical and Microstructural Investigations on a Symmetric Mould Processed with Semi-Solid Aluminum RheoMetal™: Analysis of the As-Cast Properties V. Magrin, Z. Li, A.E.W. Jarfors and F. Bonollo	47
A Comparative Study on Microstructure, Mechanical Property, and Electrical Conductivity of Al-7Si-0.6Mg Alloy Produced by High Pressure Die Casting and Semisolid Die Casting J. Feng, S. Zhu, S. Chen, Y.D. Sui and D.Q. Li	53
A Comparison of Microstructure and Casting Defects of Rheocasting and Thixocasting Al-Si-Mg Alloy J.H. Li, I. Spacil, J. Winklhofer, F. Hofstätter and S. Griesebner	61
Effect of Mn Addition on Microstructure, Mechanical Properties and Die Soldering of Rheocasting Al-7Si-0.3Mg Alloys J.H. Li, I. Spacil, J. Winklhofer, F. Hofstätter and S. Griesebner	67
Abrasive Wear Properties Evaluation of the Thixoformed A380/NbC Composite B.E. Arendarchuck, L.A. Lourençato, D.V. Tamayo, E.J. Zoqui and H.D.C. Fals	75
Preliminary Investigation on the Use of Recycled A356 Alloy for Semi-Solid Processing A. Mantelli, R. Arcaleni, L. Girelli, L. Toninelli, L. Montesano and A. Pola	83
Semi-Solid Casting of AlN Reinforced Mg-Matrix Composites and their Thermophysical Properties L. Chen, J.A. Qin, J.Y. Li, S.L. Lü, W. Guo and S.S. Wu	91
Development of High Strength and High Thermal Conductivity Semi-Solid Magnesium Alloy by Thixomolding Process L.D. Gu, X.Q. Shang, J. Wang, J.J. Deng, Y.P. Liu, X.Q. Zeng and W.J. Ding	97
Rheological Behaviour of Secondary AlSi7mg Alloy for Semi-Solid Processing M. Tocci, A. Pola and M. Modigell	107
Effect of Ingate Length on Microstructure and Properties of Semi-Solid Squeeze Casting CuSn10P1 Alloy H. Zhang, Y.K. Li, Z.Q. Li, Q.S. Wang, L.Z. Xie, L.Z. Zhang, R.F. Zhou and H. Xiao	115
Microstructure Evolution during Cooling Slope Rheoprocessing of Novel Al-15Mg₂Si-4.5Si Composite P. Das	121
Evolution of Microstructure and Mechanical Properties of the Rheo-Diecast Mg-12Gd-3Y-1Zn-0.4Zr Alloy during Heat Treatment D.Q. Li, Z.Y. Chang, J. Feng, Y.J. Wu and L.M. Peng	127

Chapter 2: Rheology, Modelling and Numerical Analysis

Rheological Behavior in the Semisolid State of Al-Si-Cu Alloys Produced by ECAP L.V. Torres, C.T.W. Proni and E.J. Zoqui	135
Numerical Simulations of the Squeeze Flow of Thixotropic Semisolid Slurries G.C. Florides, G.C. Georgiou, M. Modigell and E.J. Zoqui	141
Semi-Solid Deformation Behavior, Flow Stress Prediction and Deformed Microstructure of GH3536 Superalloy M.J. Huang, J.F. Jiang and Y. Wang	147
On the Possibility of Replacing Scheil-Gulliver Modeling with Machine Learning and Neural Network Models Z. Li, H. Tan, L. Lattanzi, A.E.W. Jarfors and P. Jansson	157
Rheological Modeling of 7075 Aluminum Alloy Semi-Solid Slurry and its Application in the Simulation of SEED Rheocasting Process H.X. Lu, X.X. Meng, N. Bunnareaksathya and Q. Zhu	165
CALPHAD Optimization of the Composition of EN AC-46000 Secondary Alloys for Semi-Solid Casting Processes S. Ferraro, A. Bongiovanni, I. Suarez Lopez, M. Palumbo, M. Baricco and A. Castellero	171
Comparison of Rheological Models to Simulate Die Filling Process of A356 Semisolid Alloy G. Sanjuan-Sanjuan, A. Galindo-Solano, I.J. Ramirez-Calera and Á.E. Chavez-Castellanos	177
Thixomolding of Magnesium - Efficient Process Industrialization by Combining a Digital Twin and Systematic Casting Trials H. Bramann, H. Rockmann, Y.X. Zhang and S. Yandamuri	183
Quality Control of Semi-Solid Die Casting by Filling Pressure Based on Machine Learning Method Z.Y. Wang, X.G. Hu, H.X. Lu and Q. Zhu	191
A Molecular Dynamics Study of Nucleation and Grain Growth of Novel Al-15Mg₂Si-4.5Si Composite during Rapid Cooling Based Semi Solid Slurry Preparation I. Mukherjee and P. Das	197
