

Table of Contents

Preface

Chapter 1: Functional Nanomaterials

Synergistic Strengthening Mechanism of Hybrid Nanoreinforcement and Surface Pre-Treatment in Adhesive Joining with Alumina/SiC Nanoparticles K. Nur Zalikha, N.D. Senu and H. Fricke	3
Synthesis and Silica Coating of Nickel-Platinum Composite Nanoparticles M. Yanase, N. Yamauchi, S. Tada and Y. Kobayashi	13
Growth, Structural and Morphological Properties of Ni₈₀Fe₂₀/ Si (111) Thin Films A. Kharmouche and L. Taberkani	23
Suppressing Stress and Defect Clustering in 8-inch PVT-Grown 4H-SiC Crystals via High-Temperature Post-Growth Annealing L. Qiao, R.S. Wei, K.L. Mao, T. Li, Y.P. Gao, G.H. Wang and H.W. Liu	35

Chapter 2: Engineering Applications of the Plasma State

Influence of Two Superthermal Electrons on the Dusty Plasma Sheath with Dynamic Dust Charge Z. Eljabiri, O. El Ghani and I. Driouch	45
Reconfiguration of a Metallic Dipole Antenna Using Plasma Parabolic Reflectors A. El Jaouhari, A. Missaoui, M. Rochdi and M. El Kaouini	53
Magnetized Plasma Sheath Formation Criterion and Floating Electric Potential in the Presence of Non-Extensive Electrons and Ionization Source O. Jdaini, A. Missaoui, M. EL Bojaddaini, M. El Kaouini and H. Chatei	63

Chapter 3: Mechanics of Materials and Structural Mechanics

Formulating a Calculation Methodology for Assessing the Strength Characteristics of Building Structures Constructed with a Construction 3D Printer O. Soshinskiy, N. Rashkevich, S. Shakhov and A. Melnychenko	73
Variant of the Mathematical Theory of Multilayer Nonlinear Elastic Plates of Non-Symmetric Structures of Arbitrary Constant Thickness A.G. Zelensky and S. Slobodyanyuk	83
Calculation of Cross-Laminated Timber Panels Using the Theory of Composite Rods and Rod Approximation T. Azizov, D. Kochkarev and O.F. Maistrenko	97
