

Table of Contents

Preface

Chapter 1: Corrosion Prevention

A New Approach in Corrosion Study Using DFT and Monte Carlo Simulation to Investigate the Synergistic Effects Natural Green Inhibitor Citrus Sinensis and Synthetic Benzotriazole on Low Carbon Steel

A.M. Sulaiman and M.N. Ilman

3

Increasing the Corrosion Resistance of Type 201 Stainless Steel Pitting by Electrochemical Method in a Citric Acid Solution

S. Hastuty, M. Nur and F.K. Nadhor

15

Chapter 2: Plasma Sprayed Coatings

The Influence of Plasma Spraying Process Parameters on Microstructure and Selected Properties of Novel NiCrAl-Cr₃C₂ Composite Coating

T. Kubaszek, B. Kościelniak, M. Góral and W. Głód

37

Determination of the Temperature Dependence of the Thermal Conductivity Coefficient of Plasma-Sprayed Coatings Based on Zirconium Dioxide in the Temperature Range up to 1100 °C

D. Borovyk, Y. Yevdokymenko, A. Kolotilo, G. Frolov, O. Terentyev, S. Shymchuk and N. Zaichuk

45

Abradable Plasma Coatings from Mechanochemically Alloyed Aluminum Powder for Gas Turbine Engines

I. Smyrnov, A. Kuzmichev, A. Chorny, I. Sieliverstov, V. Lysak, M. Sysoiev and S. Sieliverstova

53

Chapter 3: Foams and Porous Materials

Electrical Properties of Aluminium Foam

O. Byakova, S. Gnyloskurenko, A. Vlasov, D. Kytranov and V. Tsivilitsin

63

Mathematical Modelling of Structurally Inhomogeneous Porous Materials Forming Processes

A. Mikhailov, Y. Shtefan, O. Mikhailov and M. Shtern

69

Mechanical Performance of Aluminium Foam Fabricated by Melt Processing with Addition of Boron Carbide

O. Byakova, S. Gnyloskurenko, A. Vlasov, Y. Yevych, D. Kytranov, V. Tsivilitsin, V. Kovalchuk and T. Kutran

77

Chapter 4: Functional Materials

Development of a Self-Healing Coating by Microencapsulation Technique

P. Sunsarnarat, P. Pongmuksuwan and W. Kitisatorn

85

Development of an Electrochemical Sensor for On-Site Detection of Perfluorooctane Sulfonic Acid (PFOS)

P. Rungsri, A. Phongphut, K. Inpor, S. Jamikorn, V. Somsongkul and C. Thanachayanont

93

Effect of Hydrazine Hydrate on Reduced Graphene Oxide for Enhanced Electrochemical Sensing of Pb(II)

S. Chanpimai, A. Phongphut, K. Inpor, S. Jamikorn, V. Somsongkul and C. Thanachayanon

101

Study of Silver Supported on Zinc Oxide Catalyst for the Oxidation of Diesel Particulate Matter

T. Thaisruang, A. Sawatdimongkon, B. Sawatmongkon, T. Wongchang, W. Temwutthikun, P. Promhuad and K. Theinnoi

111
