

Table of Contents

Preface

Hot Double-Sided Incremental Forming of Fiber-Reinforced Thermoplastics: Process Capabilities and Challenges J.E. Rath, D. Nettig and T. Schüppstuhl	1
Classifying Parameters and Target Variables in Incremental Sheet Forming of Fiber Reinforced Polymers D. Nettig, J.E. Rath, J. Kipping and T. Schüppstuhl	11
Comparative Analysis of Die Materials for Reducing the Rebound-Effect in Electromagnetic Forming Processes R. Walther, L. Fleischer, M. Linnemann, V. Psyk and V. Kräusel	27
Comparison of PEEK and UHMWPE Cranial Implants Fabricated at Room Temperature Using Single Point Incremental Forming (SPIF) E. Mamros, A. Clark, P. Barnett, I. Ragai, S. Derek and K. Laser Jr	37
Combined Finite Element Simulation and Regression Modeling for Predicting Final Protrusion Length of Twisted Hairpin Legs in Stators D. Han, D. Cho, S. An and J.W. Yoon	51
Design and Development of a Hydrostatic Support Device for Hot Incremental Sheet Forming of PMMA R. Conte, S. Trimarchi, F. Gagliardi, L. De Napoli and G. Ambrogio	59
Numerical Study of Process-Specific Disturbances in Hollow Embossing Rolling F. Reuther, V. Psyk and V. Kräusel	65
On the Surface Quality of Incrementally Formed Niobium Sheets A. Formisano, A. Astarita, M. Garlaschè, U. Prisco, F. Scherillo and M. Durante	75
Numerical Investigation and Optimization of Blank-Holder and Magnetorheological Actuators Configurations for Deep Drawing Objectives M. Dal Maso, E. Simonetto, A. Ghiotti, S. Bruschi, S. Filippi, L. Hauser and M. Liewald	83
Feature Based Investigation of the Forming Behavior of Titanium Grade 1 for Bipolar Plate Manufacturing J. Sommer, L. Uhlmann, M. Meerkamp, T. Herrig and T. Bergs	95
Pressure Wave Analysis in Electrohydraulic Forming - A Multiple Sensor Approach L. Langstädtler, A. Tausendfreund and C. Schenck	107
Numerical Modeling of Controlled Multi-Step Expansion in Plasma Arc Welded AISI 316 Stainless-Steel Tubes F. Borda, S. Caruso and L. Filice	115
Multivariate Analysis of Scrap Web Sheared Surface Roughness for Punch Wear Indicators in Sheet-Metal Forming J. Moon, A. Frigge, P. Niemietz, T. Herrig and T. Bergs	125
Extending the Process Window of Sheet Injection in AW6082-T6 Aluminium via Localised Laser Heat Treatment J.P.G. Magrinho, A. Cusanno, M. Jesus, A. Piccininni, G. Palumbo and M.B. Silva	135
Gas Based Hot Forming of Micro-Channels for High Strength Aluminum Alloy Sheets K.J. Tilly, E. Scharifi and J. Lian	143
Mechanical Characterization by Profilometry-Based Indentation Plastometry of Locally Heat-Treated Blanks for Sheet Injection Applications A. Cusanno, J.P.G. Magrinho, A. Piccininni, P. Guglielmi, D. Sorgente, G. Palumbo and M.B. Silva	151
Influence of Process Parameter Variations on Stamping-Bending Component Quality M. Buchner, M. Damaškovič, L. Koller, W. Volk, M. Althoff and C. Hartmann	159
Hybrid Hot Forming of High-Strength Aluminum Alloys: Influence of Local Deformation on Post-Aging Mechanical Properties M. Gröbel, K.J. Tilly, E. Scharifi and J. Lian	171
Mitigation of Geometric Inaccuracy in Closed-Contour Incremental Sheet Forming via Curvilinear Toolpath Z. Mu, Y. Lee, J. Abell, A. Taub and M. Banu	181

Multi-Stage Roller Embossing of Bipolar Plate Microchannels Using 3D-Printed Tooling M. Khademi, P.N. Zhang, M.P. Pereira and M. Weiss	191
Experimental and Numerical Investigation of AA6061 Tube Flowformability K. Mocellin, N.M.R. Kauta and P.O. Bouchard	207
Resistance Heating in an Atmosphere Suitable for XHV with Thin Aluminium Film Coating B.A. Behrens, S. Hübner, U. Holländer, A. Langohr, A. Schnettger, H. Depke and L. Albracht	217
Rubber Forming as a Novel Manufacturing Approach for Bipolar Plates in Fuel Cell Systems B.A. Behrens, S. Hübner, S. Pauli, H. Rüschkamp, S. Kimmina, D. Fink and B. Yaaalimadad	227
Single Point Incremental Forming (SPIF) of Stainless Steel 304 Quilted, Laser Welded Blanks E. Mamros, D. Shaffer, I. Ragai and A. Clark	243
Reducing the Uncertainty in Flow Forming of Metastable Austenites L. Kersting, M. Koyuncu, B. Arian, J.R. Vasquez, A. Trächtler, W. Homberg and F. Walther	253
Agile Tube Roll Forming, a New Process Architecture for Manufacturing of Longitudinally Welded Tubes A. Beigzadeh, E. Simonetto, A. Ghiotti and S. Bruschi	267
Finite Element Analysis of Flexible Roll Forming of Height Variable Profiles Made of Advanced High Strength DP980 Steel M.O. Görtan, Ü. Türkmen, I. Kuzucu, E. Çivisöker and R. Ervan	277
Innovative Bending Strategies - Optimization of Bent Components to Suit Individual Load Cases Using Overbending and Underbending Strategies for the Free-Form Bending Process V. Böhm, T. Spörer, M. Ott, G. Fuchs, P. Richter, J. Tschannerl, L. Kong, A. Ismail, S. Münstermann, B. Lohmann and W. Volk	285
Local Reinforcement of SPIF-Formed Mg-Zn-Zr Alloy Thin Sheets by TIG Welding E. Ozden, O. Kurtov, H. Vanhove and J.R. Duflou	295
Hybrid Analysis of Tool Geometry and Process Noise in Fine Blanking through Simulation and Experiment D. Gelbich, F. Schweinshaupt, T. Stoel, P. Niemietz, T. Herrig and T. Bergs	305
