

Table of Contents

Research in Corrosion	
J.S.L. Leach	3
Structure and Reactivity of Metallic Interfaces	
W.J. Plieth	13
Influence of Metallurgical Variables on Corrosion	
P. Rodriguez	31
Corrosion Education - Why and how?	
S.N. Banerjee	43
Studies of Passivity Using Exafs	
J. Kruger and D.K. Tanaka	49
Environmental Effects in Fretting, Fatigue and Fretting-Fatigue	
R.B. Waterhouse	63
Selection and Behaviour of Materials in Nuclear Reactor Water System	
H.S. Gadiyar	81
Effect of Direct Current on Oxidation and Tarnishing Processes	
S.C. Sircar	115
The Passivity Film Theories - Experimental Facts and Interpretations	
C.V. D'Alkaine	135
Remote Monitoring of Electrochemical Protection Systems in North America	
J.D. Trim and J.I. Munro	145
Mechanism of Corrosion Inhibition of N-80 Steel in Sodium Chloride Solution Using Corrosion Inhibitors	
K.C. Koshel and S.S. Virmani	159
Activating Effect of Sulphur Dioxide in Atmospheric Corrosion Processes	
Y. Mikhailovsky and N. Sokolov	169
Corrosion in Drill Pipes and their Remedies (Coating)	
U.S. Kooner	181
Copper and Al-Cu Stress Corrosion in Artificial Sea Water	
G. Joseph, R. Perret and M. Ossio	185
Specificity of Chlorine Ions Effect on Corrosion of Cr18 Ni10 Type Steels in Boiling Nitric Acid	
D.M. Kramarenko, E.V. Yegorikhin, M.N. Fokin and B.M. Gusev	199
Aspects of Localised Corrosion of Condenser Tube Materials in Chloride Media	
D.N. Roy and A.K. Sinha	203
Modeling of Electrochemical Processes during Transgranular Stress Corrosion Cracking of Copper-Base Alloys	
U. Bertocci and E.N. Pugh	219
The Effects of Silicon Carbide Whiskers on the Initiation and Propagation of Pits on Silicon Carbide/Aluminium Metal Matrix Composites	
P.P. Trzaskoma	231
Corrosion Behaviour of P/M Austenitic Stainless Steels	
C. Ranninger, A. Torres, M.L. Aparicio, J.M. Ruiz, J.M. Torralba and R. Martinez	241
Testing of some Hard Gold Properties on Contact Elements	
D. Rajhenbah	251
Prolonged Effect of Hydrogen Sulphide and Carbon Dioxide on Duplex Steel	
S. Kapoor, S.B.L. Bhatnagar, V.K. Tiwari, S. Prakash, A.K. Patwardhan and K.L. Goyal	265
Atmospheric Corrosion	283
Basic Aspects of Corrosion	289
Biological Corrosion	293
Case Studies	295
Cathodic Protection	301
Coatings and Linings	307
Corrosion in Concrete Structures	317

Corrosion Resistant Alloys	323
Economics, Education and General Aspects	329
Environment Assisted Corrosion	331
Hydrogen Permeation and Embrittlement	337
Industrial Corrosion Problems	339
Inhibitors	341
Localised Corrosion	343
Marine Corrosion	347
Non-Aqueous Corrosion and Liquid Metal Embrittlement	349
Oxidation/Hot Corrosion	351
Passivation and Surface Film	353
Testing, Monitoring and Standards	355
Panel Discussion	359
