

Table of Contents

Preface

Chapter 1: Consolidated Report

Extrusion Benchmark 2023: Effect of Die Design on Profile Speed, Seam Weld Quality and Microstructure of Hollow Tubes

R. Pelaccia, M. Negozio, S. Di Donato, B. Reggiani and L. Donati 3

Chapter 2: Modeling and Simulation

Prediction of Damage Behavior of Casting Aluminum Components Considering Inhomogeneous Properties

Y.L. Lang, D.Z. Sun, Z.H. Zhu, X. Ci, D.C. Kong, H.B. Qiao and W.B. Wang 21

Microstructure Evolution and FEM Prediction on AA6XXX Alloys

M. Negozio, R. Pelaccia, L. Donati, B. Reggiani and S. Di Donato 29

Simulation of Quench Rate by Jominy End Quench Test for 6082 Aluminium Alloys

A. Gümüşsoy, O. Gülbaba, I. Kaya and E.F. Özdoğru 37

Recent Trends in Nitrogen Cooling Modelling of Extrusion Dies

R. Pelaccia, M. Negozio, S. Di Donato, L. Donati and B. Reggiani 47

Hot Torsion Tests of AA6082 Alloy

S. Di Donato, R. Pelaccia, M. Negozio, M. El Mehtedi, B. Reggiani and L. Donati 59

Study of Direct Metal Extrusion by the Upper-Bound and Finite Volume Methods

J.D. Bressan and M.M. Martins 69

A Modelling Framework for Rapid Evaluation of Speed Limitations during Extrusion of Aluminium Profiles

M. Iddberg, O.R. Myhr, A. Nesse and T. Furu 77

Automated Optimum Extrusion Die Design and Profile Quality Control Based on Simulation

I. Kniazkin, N. Biba, I. Kulakov, A. Duzhev and S. Stebunov 93

Chapter 3: Materials Properties and Processing Technologies Assessment

Feasibility Study of Solid-State Recycling through Direct Hot Rolling of AA5754 Aluminum Chips for Automotive Applications

M. El Mehtedi, P. Buonadonna, R. El Mohtadi, G. Loi, F. Aymerich, N. Ben Khalifa and M. Carta 105

Optimization of Geometric Design of Extruded Products Incorporating Properties, Cost and CO₂ Footprint

A. Nesse, M. Iddberg, O.R. Myhr and T. Furu 115

AlZn-Matrix Cast Composites Reinforced with Ti Aluminides

P.K. Krajewski, A.L. Greer, J. Orava, B. Gracz, G. Piwowarski, M. Kawalec, E. Olejnik and W.K. Krajewski 127

Influence of Different Aging Times and Temperatures on Microstructural and Mechanical Properties of EN AW-6XXX Aluminum Alloys

C. Soffritti, C. Morales, A. Fortini and M. Merlin 135

Effect of Homogenization Cycle on Precipitation of Dispersoids and Abnormal Grain Growth in an Al-Mg-Si Alloy

S.K. Gahlyan, P.S. Wanjari, S. Agrawal, B. Bharadwaj, M. Saxena and V. Srivastava 145

Antimicrobial Performance of Different Metals

R. Jayachandran 159

The Influence of Surface Segregation on the Anodizing of AlSi11Cu2(Fe) Diecastings

G. Scampone, A. Russo, R. Muzzani, A. Carminati and G. Timelli 169

**Influence of Gas Oven Temperature on the Microstructure and Extrudability of Al-Mg-Si
Aluminium Alloys**

A. Schiffl, S. Tourey and P. Riepler

175
