Preface

Committees

SECTION I – CORROSION AND TRIBOLOGY OF CERAMIC SURFACES

I-1 Corrosion

Corrosion of Single Crystal Cordierite by Model Diesel Particulate Filter Ashes: Mechanisms and Orientation Dependence

N. Maier, K.G. Nickel, C. Engel and A. Mattern 1

Influence of Hydrofluoric Acid Concentration and pH on Corrosion of Porous Multi-Oxide Engineering Ceramics

M. Mannila and A. Häkkinen 7

Study of Corrosion Behavior of Conventional and Nanostructured WC-Co HVOF Sprayed Coats

S. Khameneh Asl, M.R. Saghi Beyragh and M.G. Kakroudi 13

Performance of Blended Cement Concrete against Seawater Attack

H.H. Seleem, A.M. Rashad and B.A. El-Sabbagh 19

I-2 Wear

The Role of Plastic Deformation in Nanometer-Scale Wear

P. Egberts and R. Bennewitz 25

Tribological Performances of Polymer-Based Coating Materials Designed for Compressor Applications

S.M. Yeo, E. Escobar Nunez and A.A. Polycarpou 33

Advanced Evaluation Methods of Residual Stress in Bioceramics Wear Surfaces

G. Pezzotti 43

Characterization of Wear Mechanisms of Silicon Carbide Materials

V. Presser, K.G. Nickel and C. Berthold 49

Effect of Polymorphic Zirconia Phases on the Mechanical and Wear Properties of Cr₃C₂-NiCr Cermets

Y.K. Tür, A. Özer and C. Duran 59

Study on the Development of Resource-Saving High Performance Slurry - Polishing/CMP for Glass Substrates in a Radical Polishing Environment, Using Manganese Oxide Slurry as an Alternative for Ceria Slurry

T.K. Doi, T. Yamazaki, S. Kurokawa, Y. Umezaki, O. Ohnishi, Y. Akagami, Y. Yamaguchi and S. Kishii 65

Mechanical Properties of Silicon Nitride Using RUS & C-Sphere Methodology

M. Hadfield, W. Wang and A. Wereszczak 71

SECTION II – CERAMIC JOINING

Characterization and Performance of Glass-Ceramic Sealants for SOECs

H. Khedim, A.J. Connelly, H. Nonnet, D. Coillot, F. Mear and L. Montagne 76

In Situ HRTEM Observations of Spreading Reactive Molten Alloy on Ceramic Substrates

C. Iwamoto and S. Tanaka 83

Ultrarapid Transient-Liquid-Phase Bonding of Advanced Ceramics

S.M. Hong, C.C. Bartlow, T.B. Reynolds, N. Saito and A.M. Glaeser 88

Overview on Wetting and Joining in Transition Metals Diborides

M.L. Muolo, F. Valenza, N. Sobczak and A. Passerone 98

The Quality of Brazed Ceramic and Cemented Carbide Joints - A Mechanical and Metallurgical Assessment

W. Tillmann, L. Wojarski and B. Lehmert 108

Temperature Modeling for Friction Welding Process between Ceramic and Metal H. Seli, A. Izani Md. Ismail, E. Rachman and Z.A. Ahmad	115
Residual Stress Measurement around the Interface of Copper Bicrystal Deformed by Uniaxial Extension H. Takao, A. Shiro and T. Okada	125
Preparation, Characterization and Applications of Glass-Ceramic-to-Metal Seals I.W. Donald, B.L. Metcalfe, L.A. Gerrard and J.A. Fernie	135
Finite Element Modeling of Thermal Stress in ITER Prototype Optical Windows and its Influencing Parameters M. Jacobs, G. Van Oost, J. Degrieck, I. De Baere, A. Goussarov and V. Massaut	145
Interfacial Microstructure and Properties of SiC / SiC Joint Brazed with Ag-Cu-Ti Alloys A.H. Ghazi Daryani, A. Nemati and A.H. Kokabi	151
