

Table of Contents

Preface

Committees

SECTION I – SCIENCE OF SILICATE CERAMICS

New Silicate Glass-Ceramic Materials and Composites

D. Hotza and A.P.N. de Oliveira 1

Characterization of Microstructure and Crystallographic Texture of Silicate and Phyllosilicate Ceramics

D. Chateigner, P. Blanchart, S. Deniel, L. Lutterotti and H.R. Wenk 13

New Development in the Non Contact Optical Measurement of Thermo-Mechanical Properties of Materials

M. Paganelli and D. Paganelli 23

Clay Structural Transformations during Firing

P. Blanchart, S. Deniel and N. Tessier-Doyen 31

The Role of the Kaolinite-Mullite Reaction Sequence in Moisture Mass Gain in Fired Kaolinite

H. Mesbah, M.A. Wilson and M.A. Carter 38

Synthesis of Hybrid Lamellar Silica by Liquid Crystal Templating and Silanation

G. Toussaint, C. Henrist, B. Vertruyen and R. Cloots 44

Long-Term Optical and Thermal Examinations of Ceramic Wall System with Solar-Altitude Dependent Reflectance

H. Kakiuchida, M. Tazawa, T. Sugiyama, K. Yoshimura, K. Tajiri and Y. Ishikawa 53

Crystallization of Gahnite in CMAS Glass Forming System - Mechanism and Process Kinetics

D. Herman, T. Okupski and W. Walkowiak 59

Simple Rheological Tests and Protocols for SME Ceramic Producers

D. Gardini and C. Galassi 65

SECTION II – INNOVATION IN THE SILICATE CERAMICS

INDUSTRY

Lightweight Aggregate Processed from Waste Materials

V. Ducman and B. Mirtić 75

Consolidation of Sand by Alkaline Silicate Solution

S. Lucas, M.T. Tognonvi, J. Soro, S. Rossignol and J.L. Gelet 84

Development of Photochromic Coatings on Ceramic Tiles

B. Atay, M. Gurbuz, A. Kucuk, A. Goktas and A. Dogan 90

Visible and Infra-Red Reflectance of Several Typical Japanese Glazes for Roof Tiles and Wall Tiles

T. Sugiyama, H. Kakiuchida and M. Ohashi 96

Quantitative Infrared Thermography (IRT) and Holographic Interferometry (HI):

Nondestructive Testing (NDT) for Defects Detection in the Silicate Ceramics Industry

S. Sfarra, D. Ambrosini, A. Paoletti, D. Paoletti, C. Ibarra-Castanedo, A.H. Bendada and X. Maldaque 102

Fast Firing of Glazed Tiles Containing Paper Mill Sludge and Glass Cullet

G. Tonello, E. Furlani, D. Minichelli, S. Bruckner, S. Maschio and E. Lucchini 108

Kinetics Study on Controlled Crystallization of a $\text{Ca}_2\text{ZnSi}_2\text{O}_7$ Phase in Materials Obtained from Vitrification of Metallurgical Slag and Recycled Soda Lime Glass

E.I. Cedillo González, J.J. Ruiz Valdés and A. Álvarez Méndez 114

Sintering Behaviour of Ceramics Containing Paper Sludge, Glass Cullet and Different Types of Clayey Materials

E. Furlani, G. Tonello, S. Maschio, E. Aneggi, D. Minichelli, S. Bruckner and E. Lucchini 120

SECTION III – NANOTECHNOLOGY AND ADVANCED SOLUTIONS IN SILICATE CERAMICS

Testing of Photocatalytic Activity of Self-Cleaning Surfaces U. Lavrenčič Štangar, M. Kete, U. Černigoj and V. Ducman	126
Nano-Structured Glassy and Ceramic Surfaces: Development of "Active" Materials for an Innovative Approach to Building Industry G. Baldi, A. Cioni, V. Dami, A. Soldi and A. Signorini	135
Nano-Sized Metal Oxide Modification Applied in Microfiltration Membrane Technology J.E. Zhou, Q.B. Chang and Y.Q. Wang	145
Effect of Nanosized TiO₂ on Nucleation and Growth of Cristobalite in Sintered Fused Silica Cores for Investment Casting G. Casarano, A. Licciulli, A. Chiechi, D. Diso, D. Bardaro, P. Bene and M. Di Foggia	153
Almost Complete Nitridation of Mesoporous Silica to Mesoporous Silicon (Oxy)Nitride with Ammonia F. Hayashi and M. Iwamoto	159

SECTION IV – DECORATION, COLOUR AND DESIGN OF SILICATE CERAMICS

Innovations and New Trends in Ceramic Tile Decoration A. Moreno, V. Lázaro, A. Mateu and Y. Reig	165
Effect of pH, Molar Ratio of Fuel to Nitrates and Calcination Temperature on the Glycine-Nitrate Synthesis of Nano CoAl₂O₄ S.H. Jazayeri, F. Bondioli, S. Salem, A. Allahverdi, M. Shirvani and A.M. Ferrari	176
Development of New Ceramic Dyes G. Monrós, M. Llusar, A. García, C. Gargori and R. Galindo	182
Novel Ceramic Pigments Based on Industrial Wastes W. Hajjaji, G. Costa, M.J. Ribeiro, M.P. Seabra and J.A. Labrincha	194
Colour Properties of Y₂O₃-Al₂O₃-Cr₂O₃ Pigments as a Result of Precursors Morphology E. Stobierska, M.M. Bućko, J. Lis and K. Kuźmińska	202
New Chromium-Calcium Titanate Red Ceramic Pigment C. Gargori, R. Galindo, M. Llusar, S. Cerro, A. García and G. Monrós	208
The Effect of Ferrochromium Fly Ash as a Pigment on Wall Tile Glaze Z. Bayer Öztürk and N. Ay	213
