

Table of Contents

Preface

Chapter 1: Steel and Alloys

Phase Precipitation Prediction in the X65 Steel Grade and Modified UNS N06625 Alloy R.G. Tayactac, M.C. Manuel, J. Honra and T.B. Kaspary	3
Evaluation of the ACDR Forming Uniformity for Large-Size Titanium Alloy Heads Based on FEM and RSM Methods J.G. Nan, D. Liu, J.G. Wang, J.H. Zhao, Y.H. Zhang, Y.H. Yang and J. Wu	11
Deformation Characteristics and Microstructure of Nickel-Based Alloy Combined under Compression and Torsion J.G. Wang, J.G. Nan, Y.H. Zhang, D. Liu, Y.J. Yuan and Y.H. Yang	27

Chapter 2: Thin Films

Effect of Cold Isostatic Pressing on the Thermal Stability of PMMA Interlayer-Encapsulated MAPbI₃ Perovskite Films Y.H. Soo, M. Choong, C.Y. Ng, H.K. Jun and F.W. Low	43
Enhanced Dielectric Performance of Titanium/Graphene Oxide/Nanocellulose Composites for Advanced Capacitor Applications H.R. Lu, J.Y. Lin, J.H. Liao, Y.H. Chang and C.Y. Lee	49
NiCo Electroforming Research on Ru/c Multilayer Film for Mirror Production H.X. Chen and K. Wang	55
Revealing the Broadband Terahertz Faraday Rotation Mechanism in Rare-Earth Doped Yttrium Iron Garnets Q.D. Xie, Z.C. Bin, T.Y. Zhang, M. Hu, Q.H. Yang and P.H. Zhou	61

Chapter 3: Composites

Wear Mechanisms of a Kevlar-Zirconia-Epoxy Composite Casing Lining Y. Fouad, N. Merah and A. Shaarawi	71
The Mechanical Properties of Vanillin-Incorporated Surgical Obturator Resin S. Thaweboon, P. Chirachoenporn, P. Iamteerapaiboon, P. Quanprasert, A. Tripaththaranan and P. Churnjittapirom	79
Optimizing Fiber Orientation GFRP Composite Wraps for Enhanced Burst Pressure Performance of Corroded API 5L X42 Pipelines M.D. Abdul Shahid, M.H. Mohd Hashim, M.K. Kamarudin, S.A. Kudus, N.M. Fadzil, A. Jamadin and M.F. Muda	85
Effective Refractive Index Estimation of Composite Structures Using the Mie Theory and Layer Transmissivity Approach J.P. Bijarniya, M.M. Rehman and A. Seppälä	91

Chapter 4: Advanced Nanomaterials

Film Property Enhancement of Bacterial Nanocellulose Suspension Using High-Pressure Homogenization Parameters R. Lueangkrathok, K. Pacaphol and D. Aht-Ong	101
Strategic Development of Nanoemulsion Bases for Versatile Active Ingredient Incorporation S. Thepwatee, A. Pinket and S. Rangauthok	107
Synthesis of Iron-Doped Carbon Nanodots from Waste Expanded Polystyrene and its Application in Carbon Monoxide Gas Detection N.F.B. Vidal, E.A. Tolentino, F.J.F. Lacsá and R.V.D.C. Rubi	115

Tropine-Based Deep Eutectic Solvents (DES) Applied in the Alcoholysis of Polyethylene Terephthalate (PET) for Preparation of Nano Carbon Dots G.J. Zhou, C. Chen and S. Yao	123
Evaluation of Bismuth Oxide Nanoparticles (BiONPs) as a Potential Contrast Agent in Computed Tomography (CT) Imaging M.H.Z. Husri, S.M. Tajudin, J. Mohd Radzi, N.S. Mohamed, W.N. Wan Abdul Rahman, K.A. Razak and N.H. Mohd Zainudin	129
Stable and Tunable Photoluminescence Emission of Functionalized Carbon Dots for Heavy Metal Ion Detection G.G. Edilo and R.T. Candidato Jr.	137

Chapter 5: Green Building Materials

Dynamic Behaviour of Geopolymer Concrete with Varied Compositions and Equivalent Compressive Strengths M. Aown and S. Al-Deen	147
Flexural Characteristics of Eco-Friendly Self-Compacting Concrete with Rice Husk Ash M.H. Mohd Hashim, M.F. Muda, M.H. Mohd, N.M. Fadzil, M.D. Abdul Shahid, H. Ahmad and N. Pujirahayu	153
High-Volume Fly Ash Concrete for Road Pavement: Integrated Laboratory and Field Study T.P. Le, D.T. Nguyen, T.K. Lam, H.P.D. Ninh and T.P. Huynh	159

Chapter 6: 3D Printing

Effect of Infill Density on Electrical Sensitivity of 3D-Printed Flexible Pressure Sensors Using Ultrasonication Cavitation-Enabled Treatment and Thermal-Assisted Method S. Wu, C. Aumnate, P. Potiyaraj and P. Kungsadalpipob	167
Morphology and Deviation Dimension of Hydroxyapatite/Collagen Composite after Printing with Three-Dimensional Bioprinting N. Nurbaiti, M.K. Herliansyah, A.E. Tontowi, M.G. Widiastuti and H.V. Hoten	173
Study of the Factors on Controlling Cured Layer Thickness in DLP 3D Printing C.S. Shin, C.Y. Lu and C.L. Lin	179

Chapter 7: Structural Health Monitoring Technologies

Study on the Mechanical Properties and Monitoring of Castable Polyurethane Elastomeric Bearings X.T. Yu and Y. Yuan	187
