

Table of Contents

Preface

Chapter 1: Building Materials

Behavior of RC Beam-Column Joints Using High-Strength Concrete and Engineered Cementitious Composite A. Gir, M. Fahim and A. Ghani	3
Investigate the Effect of a Pumice Fine on Strength and Permeability of Pervious Concrete S. Inamullah, S. Nasir Shah, S. Awais Ahmed, M.U. Kasi and M. Aslam	11
Sustainable Tire Waste Biochar Additives for Enhancing Concrete Strength and Eco-Efficiency M. Nouman, M. Kanwal, M.S. Ullah and S.A. Mansoor	19
Interpretable Machine Learning Modeling for Surface Chloride Concentration Prediction in Marine Concrete M. Luqman and M. Arif	27
Challenges in Translating Rubberized Mortar Properties to Concrete: Segregation and Shear Slump S.Z. Ejaz, C.T. Shafqat, U. Jameel, H. Choudary and A. Khitab	43
Streamlining Sustainability: Innovative Approaches for Hazardous Waste Treatment - A Comprehensive Overview Z. Ali, A. Ahmed and H. Bibi	51
The Impact of Silica Fume on the Properties of High-Strength Concrete: Enhancing Strength, Workability, and Durability Z. Ullah, M.K. Rashid, S. Shafi Ur Rehman and M. Sadia	61

Chapter 2: Advanced Construction

Fulfilling Stakeholder Needs and Concerns: A Path to Satisfaction in Construction Projects M. Ali, S. Ur Rehman and A. Qadeer	73
Innovative Building Insulation Solutions: Combating Global Warming with Advanced and Eco-Friendly Technologies Z. Khan and M. Ali	81
Bridge Failures Caused by Flood: A Case Study of Balochistan A. Khan, N.M. Babar, M.A. Abbas, A. Ullah, Z. Rafique and M. Moiz	91

Chapter 3: Urban Planning

Impact of Land Use and Traffic Volume on Noise Pollution at Different Unsignalized Intersections M. Gul, T. Ahmad, I. Ahmed, M. Zaman, A. Ahmed and N. Ali	101
Emerging Trends in Urban Water Management: A Comprehensive Review of Innovative Approaches and Solutions Z. Ali, A. Ahmed and H. Bibi	109
Environmental and Social Sustainability Assessment of Public Infrastructure - Best Practices and Lessons Learned A. Khan, F. Arif and A.U.R. Khan	117
Infrastructure and Disaster Risk: A Comparative Study of Pakistan and other Nations (By C.M.S. Akbar, Et AL) C.M.S. Akbar, M. Mursaleen and A. Bashir	127

Chapter 4: Computational Research and Modeling in Construction

A Review on Application of Machine Learning Techniques in Seismic Analysis of Timber Structures S.A. Abbas	139
Evaluation of Effects of Pounding on RC Building Structures under Strong Seismic Events Q.M. Alam, A.F. Mohammad and S.S. Mobeen	149
A Simplified Numerical Modelling Approach for the Nonlinear Analysis of Reinforced Concrete Structures S. Faisal, M. Waseem and A. Abbas	157
Seismic Response of Structures Subjected to Pounding under Mainshock-Aftershock Sequences Q.M. Alam, A.F. Mohammad and S.S. Mobeen	165
Failure Mechanism of Tree-Shape Support Structures under Static and Lateral Loading M. Luqman, A.Z. Khan and M. Arif	173
Modeling the Effects of Coastal Vegetation in Mitigating Tsunami and Flood Current S.M. Ahmad, N. Anjum, M.S. Abbas, A. Shahid, A.B. Bukhari, A. Sohail, Z. Ahmad and H. Aslam	181
Numerical Investigation of Flow Dynamics in a Sharp-Crested Weir with Variable Geometry N. Anjum, J. Ashraf, M. Ahmad, U. Ghani, M. Hamza and A. Aziz	191

Chapter 5: Risk Management in Construction

Developing a PLS-SEM Model to Identify Risk Management Strategies in Construction Contracts: A Case Study in Public Sector Construction of Pakistan S. Ahmed, B. Bahram, S. Razzaq, D. Dost and M. Ali	205
A Deep Learning-Based Safety Management Framework for Enhancing Fire Resilience and Addressing Fire Hazards in Karachi: An Analysis of Infrastructure Interdependencies Using IN-Core and MXL A. Siddiqui, C.P. Wang, M. Imran, A. Raza and S.A. Mangi	213
Infrastructure and Disaster Risk: A Comparative Study of Pakistan and other Nations (by Zain Ali, et al.) Z. Ali, A. Ahmed and H. Bibi	223

Chapter 6: Properties and Behavior of Soil

Impact of Climate Change on Organic soil: A Comprehensive Literature Review M. Haseeb, A. Ayub and A. Nawaz	233
Optimizing Granular Soil Properties with Marble Dust: A Case Study from Peshawar City H. Khan, M. Jawad-ul-Haq, A. Khan Jadoon and H.N. Khan	241
Effect of Shallow Foundation Size on Bearing Capacity of layered Soil: 3D Numerical Simulations S. Khan, A. Khan, N. Majeed, N. Khan and S. Mandokhail	249
Innovative Approaches to Liquefaction Mitigation in Seismic Zones: A Comprehensive Overview Z. Ali, A. Ahmed and H. Bibi	255
