

Table of Contents

Preface

Chapter 1: Composites

Experimental Investigation of the Dynamic Compressive Behavior of Carbon-Flax Fiber Reinforced Polymer Composites at High Strain Rates O.M. Mabrouk, W. Khair-Eldeen, A.H. Hassanin and M.A. Hassan	3
Mechanical Performance of Defective FDM Multi-Layer Material Panels A. Elhassan, W. Ahmed and E. Zanelidin	11
Finite Element Simulation of Split Hopkinson Pressure Bar (SHPB) Test to Predict the Dynamic Compressive Behavior of Glass Fiber Reinforced Polymer (GFRP) Composite N.A. Yusuf, W. Khair-Eldeen, T. Tsuchiya and M.A. Hassan	21
Experimental Study of Damage Energy on the Bow of a Vessel with Second-Generation Viscoelastic Layers for the Galápagos Islands P. Townsend, J.J. Zamora-Zamora, W.G. Arias Pilco and J.C. Suárez-Bermejo	29

Chapter 2: Materials for Biomedical Applications

Cost-Effective Hydrothermal Synthesis of Luminescent Carbon Dots from Date Palm Midrib O.H. Hassan, A.S. Saad and M. Ghali	39
Biomechanical Effects of Titanium Alloy Based Single versus Dual Cage Fusion Devices N.K. Singh, R. Verma, P. Kumar and N.K. Singh	45
The Effect of Combinations of Wall Materials on Encapsulation of Phenolic Contents from Extract of <i>Clitoria ternatea</i> T. Chimsook	57

Chapter 3: Functional Materials

Rice Straw-Derived Biochar Electrode for Sustainable Energy Storage Applications W.O. Makinde, M.A. Hassan, G. Guan and A.S.G. Khalil	67
Carbon Footprint in Bovine Fat Biodiesel Synthesis - Comparison Using Methanol or Ethanol M. Córdova, O. Cabrera, O. Ruíz and E. Barreno-Avila	75
Performance Assessment of Basic Oxygen Furnace Slag (BOFS) as an Ice-Melting Abrasive Material S. Sandybay, I. Orynassarov, C.S. Shon, D. Zhang and J.R. Kim	83
Optimizing Lasing Parameters for Fabricating an Efficient Flexible Electrothermal Heater Based on Laser-Induced Graphene G. Nkamuhebwa, A.A. El-Moneim, H.A. Ali Hassan, T. Tsuchiya and M.A. Hassan	91
CTAB-Si Nanoparticles Derived from Rice Husk Ash for Nitrate Ions Removal in Simulated Wastewater M.R.D. Danico, R.V. Maulion, A. Llanes, L.C.B. Llave and B.M. Magwari	99

Chapter 4: Building Materials

Experimental Evaluation of Adobe Bricks Reinforced with Rice Husk, Lime and Neem Fibers for the Construction of Sustainable Housing in Andean Areas L.F. Gutierrez, J.R. Casas and R.M. Delgadillo	111
Effects of Curing Conditions, Age, and Particle Size on CO₂ Sequestration of Basic Oxygen Furnace Slag Used in Concrete D. Ualiyev, Z. Omarova, C.S. Shon, D. Zhang and J.R. Kim	117

A Robust Statistical Analysis of Factors Affecting Interface Bonding between Asphalt Pavement Layers

R. Al-Jarazi, A. Rahman and C.F. Ai

125

Characterization of Phosphogypsum for Potential Uses in Soil Stabilization

D. Temirbekov, C.S. Shon, I. Manap, D.K. Kim, H.S. Kim and J.R. Kim

133
