

# Table of Contents

## Preface

## Chapter 1: Steel and Alloys

<b>Microstructural Processes in Thermal Creep of Zirconium Nuclear Fuel Cladding Tubes</b> P. Král, K. Kuchařová, M. Kvapilová, J. Dvořák, J. Krejčí and V. Sklenička	3
<b>Analysis of Cavitation Damage of HR3C Steel Tube Joints after Internal Pressure Creep Tests</b> Z. Kuboň, J. Kosňovská and G. Rožnovská	9
<b>Hydrogen Embrittlement of X52 Electrolytically Charged Pipeline Steel</b> H. Jirková, J. Duliškovič, D. Aišman and J. Kasl	15
<b>Metallographic Analysis of a Failed Cast Upper Ram of a Die-Forging Hammer</b> R. Palupčíková, P. Váňová and V. Vodárek	23
<b>Crack Analysis in Welds of Boiler Tubes Made of T24 Steel</b> J. Kasl and R. Fikrlová	31
<b>Comparing the Mechanical Properties of Secure Ballistic Steels after Heat Treatment by the Q-P Process</b> V. Coufal, L. Kučerová, H. Jirková and Š. Jeníček	39
<b>Local Corrosion Attack of Stainless Steels in the Food Industry</b> G. Rožnovská, J. Kosňovská and Z. Kuboň	45
<b>Dezincification as a Cause of Damage to Brass Fittings</b> J. Kosňovská, G. Rožnovská and Z. Kuboň	51

## Chapter 2: Protective Coatings

<b>Evaluation of TWAS Coatings Wear Mechanism by Means of SEM</b> J. Duliškovič, D. Aišman and Š. Houdková	59
<b>Analysis of Stainless Steel 316L Coatings Prepared by High-Speed and Conventional Laser Cladding</b> P. Martínek and K. Brom	65
<b>Effect of Deposition Parameters on Indentation Fracture Toughness of Cermet HVOF Coatings</b> J. Duliškovič, Š. Houdková and M. Vostřák	73
<b>Application of Cold Spray Protective Coating on Steel Used in the Pipeline Industry</b> Ž. Dlouhá, J. Frank, J. Duliškovič, H. Jirková and Š. Houdková	79

## Chapter 3: Additive Manufacturing

<b>Impact of Heat Treatment on Microstructure and Mechanical Properties of L-PBF Additively Manufactured AlSi10Mg Alloy</b> L. Džuberová and J. Sobotová	91
<b>Structural Analysis of 3D-Printed Tinber Alloy Designed for Hydrogen Storage</b> P. Hájková, J. Horník, E. Čižmarová, P. Praženica, J. Horváth, J. Čapek and K. Trojan	99
<b>Properties of H13 Tool Steel Produced by Various Additive Technologies</b> S. Němeček and P. Kubovec	109

## Chapter 4: Advanced Technologies in Materials Science

<b>Collection of Replicas to Evaluate the Structural Condition of Steel after Thermal Ageing</b> D. Bricín, Z. Špirit and J. Brom	117
--	-----

<b>Preparation of Thin and Powdered Radioactive Samples for Electron Microscopy and X-Ray Diffraction Analysis of Radiation-Induced Damage</b>	
V. Rosnecký, C. Aparício, O. Nechypor, P. Halodová, P. Gávelová and Z. Fencel	123
<b>The Influence of Sample Preparation on Correlative Microscopy with the Use of Artificial Intelligence Methods</b>	
O. Ambrož, J. Čermák and Š. Mikmeková	131
