

# Table of Contents

## Preface

## Chapter 1: Properties and Production Technologies of Concrete

<b>Quantification of Microstructural Changes in Limestone Cement Paste Stored in Sulfate Environment at Low Temperature</b>	
K. Sotiriadis, M. Hlobil, D. Machová, P. Mácová, A. Viani and M. Vopálenský	3
<b>The Use of Fly Ash in the Production of Concrete and Products Based on it</b>	
F.L. Kapustin and A. Vishnevsky	8
<b>Development of Innovative Photoactive Admixtures for Concrete and Cement-Based Plaster Finishes, to Create Self-Cleaning Surfaces</b>	
P. Dohnálek, J. Jirkovský, T. Sázavská, J. Šubrt, V. Pumpr, H. Bíbová, M. Jakubičková and M. Pusztaí	14
<b>High Performance Fine Grained Concrete with Content of Pumice</b>	
V. Bilek, M. Pešata and L. Procházka	21
<b>Influence of Washing of Crushed Aggregate on Mechanical Properties of High-Performance Concrete Containing Supplementary Cementitious Materials</b>	
J. Fládr, P. Bíly, T. Trtík, R. Chylík and V. Hrbek	26
<b>Determination of Concrete Resistance to Corrosive Effects of Water with Aggressive CO<sub>2</sub> Using Model Mortars</b>	
D. Kocáb, I. Terzijski, J. Strnad and M. Ševčík	31
<b>Evaluation of Self-Healing in Concrete by Means of Analytical Techniques</b>	
K. Aspiotis, K. Sotiriadis, I. Kumpová, P. Mácová, E. Badogiannis and S. Tsivilis	38
<b>Comparison of Resistance of Concrete for Sewage Pipes to Sulphate Corrosion Using Model Mortars</b>	
D. Kocáb, I. Terzijski, J. Strnad and P. Louda	44
<b>Determining the Freeze-Thaw Resistance of Concrete Incorporated in an Existing Structure</b>	
D. Kocáb, P. Žitt and S. Hüblová	51
<b>Integrated Anchorage of Thin Facade Panels Made of Textile Reinforced Concrete</b>	
J. Řepka, T. Vlach, D. Mariaková, Z. Jirkalová and P. Hájek	57
<b>Compressive Strength of Various Types of Concrete Exposed to Elevated Temperature</b>	
K. Horníková and M. Foglar	62
<b>Resistance of Concrete with Surface Treatment against Chemical Deicing Agents</b>	
R. Chylík, T. Trtík, J. Fládr and L. Musil	68
<b>Fracture Parameters of Alkali-Activated Aluminosilicate Composites with Ceramic Precursor</b>	
H. Šimonová, I. Kumpová, I. Rozsypalová, P. Bayer, P. Frantík, P. Rovnaníková and Z. Keršner	73
<b>GFRP Reinforcement Behaviour under Multi-Axial Stress - Experimental Study</b>	
V. Kostiha, F. Girgle, O. Januš, I. Švaříčková and P. Štěpánek	80
<b>The Effect of Eccentricity of Concrete Specimen on Measured Value of Modulus of Elasticity</b>	
R. Chylík, T. Trtík, J. Fládr and J. Vašková	87
<b>Verification of Durability Properties of Alkali-Activated Materials Based on Blast Furnace Slag with Fly Ash</b>	
L. Procházka and J. Boháčová	93
<b>Measurement of Early-Age Strength of Concrete</b>	
J. Tichý, P. Kasal, V. Lorenc, P. Cikrle and D. Kocáb	98
<b>The Use of Maturity Method for Estimating <i>In Situ</i> Compressive Strength of Concrete</b>	
P. Kasal, V. Lorenc and W. Wenighofer	103
<b>Pervious Concrete with Dense and Lightweight Aggregate</b>	
R. Hela and M. Hubertová	108
<b>Influence of "MC-Bauchemie" Additions on the Fine-Grained Concrete Properties</b>	
E.S. Gerasimova and E. Gumirova	114

<b>Application of Modified Peat Aggregate for Lightweight Concrete</b> F.L. Kapustin and V.A. Belyakov	120
<b>Concrete Recycling as a Source of Polyfractional Mineral Raw Materials</b> I.K. Domanskaya, F.L. Kapustin and R. Hela	126
<b>Assessment of the Influence of Curing Laquers on the Durability on Concrete Products</b> A. Hubáček	132
<b>Experimental Investigation of Bond between GFRP Reinforcement and Concrete</b> I. Holly	140

## **Chapter 2: Testing, Modelling and Designing of Concrete Structural Elements**

<b>Numerical Analysis of Temperature Distribution throughout a Concrete Slab during Fire Using a Web-Based Solver</b> J. Holan and R. Štefan	149
<b>Verification and Validation of Corbels Strengthened by Unbonded Tendons and Bars</b> L. Bobek, L. Juríček, M. Číhal, J. Kabeláč and M. Konečný	157
<b>Design of Concrete Hinges According to Leonhard</b> P. Havlíček and J. Šoltész	163
<b>Basis for Design of Bearings in New the Generation of Eurocodes</b> J. Marková, M. Holicky, K. Jung and M. Sýkora	169
<b>Selected Approaches to Numerical Modeling and Analysis of Fiber Reinforced Concrete Beam</b> O. Sucharda	174
<b>Experimental and Numerical Evaluation of UHPFRC Slabs Subjected to Contact and Close-In Explosion</b> O. Janota and M. Foglar	180
<b>Safety of the Models for Assessment of Punching Resistance of Flat Slabs with Openings Adjacent to the Columns</b> L. Kormosova, J. Halvonik and L. Majtánová	186
<b>Safety Formats for Non-Linear Analysis: Are the Current Structural Codes Applicable for Practice?</b> V.V. Tur, S.S. Derechennik and A.V. Tur	193
<b>Large-Size Jointless Concrete Slab-on-Grade with Combined Prestressing</b> A.V. Tur	201
<b>Effect of Fire Model Parameter Variability on Determination of Fire Resistance of Concrete Structural Members</b> M. Benýšek, R. Štefan and J. Procházka	208
<b>The Analysis of Shear Forces Flow around the Supports of Flat Slabs</b> S. Šarvaicová and V. Borzovič	216
<b>Safety of Eurocode Model for Prediction of Shear Strength of Bridge Deck Slabs</b> A. Vidaković and J. Halvonik	222
<b>Reliability of Slender Reinforced Concrete Columns in Second Generation of Eurocodes</b> E. Fillo, V. Benko and J. Dobrý	228
<b>Testing of the Prefabricated Reinforced Concrete Pillars</b> O. Šimek, M. Zich, M. Janda, P. Daněk and R. Nečas	234
<b>Approaches to Determine Material Model of Fibre Reinforced Concrete</b> M. Tipka and J. Vašková	240
<b>Reconstruction Effectiveness of Locally Supported Flat Slabs to Increase in Shear Resistance</b> M. Bolešová, K. Gajdošová and M. Čuhák	246
<b>Modelling and Manufacturing of Complex Architectural Elements of Concrete Using Industrial Robots in Formwork Fabrication</b> V. Usmanov, D. Fakhri, M. Jogl and K. Kolář	252
<b>3D Printing of Concrete Structures Modelled by FEM</b> M. Vaitová, L. Jendele and J. Červenka	261
<b>Service Life of Concrete Structures</b> M. Holicky and J. Kolísko	267

**Prestressing Steel Ropes - Corrosion Impact on its Properties**

J. Kolísko, V. Vacek, P. Pokorný and M. Kostelecká

272

**Operation Modal Analysis of Pedestrian Bridge in Kromeríž**

K. Bezručová, R. Nečas and J. Koláček

281
