

Table of Contents

Preface

Chapter 1: Properties and Production Technologies of Concrete

Quantification of Microstructural Changes in Limestone Cement Paste Stored in Sulfate Environment at Low Temperature K. Sotiriadis, M. Hlobil, D. Machová, P. Mácová, A. Viani and M. Vopálenský	3
The Use of Fly Ash in the Production of Concrete and Products Based on it F.L. Kapustin and A. Vishnevsky	8
Development of Innovative Photoactive Admixtures for Concrete and Cement-Based Plaster Finishes, to Create Self-Cleaning Surfaces P. Dohnálek, J. Jirkovský, T. Sázavská, J. Šubrt, V. Pumpr, H. Bíbová, M. Jakubičková and M. Pusztai	14
High Performance Fine Grained Concrete with Content of Pumice V. Bilek, M. Pešata and L. Procházka	21
Influence of Washing of Crushed Aggregate on Mechanical Properties of High-Performance Concrete Containing Supplementary Cementitious Materials J. Fládr, P. Bílý, T. Trtík, R. Chylík and V. Hrbek	26
Determination of Concrete Resistance to Corrosive Effects of Water with Aggressive CO₂ Using Model Mortars D. Kocáb, I. Terzijski, J. Strnad and M. Ševčík	31
Evaluation of Self-Healing in Concrete by Means of Analytical Techniques K. Aspiotis, K. Sotiriadis, I. Kumpová, P. Mácová, E. Badogiannis and S. Tsivilis	38
Comparison of Resistance of Concrete for Sewage Pipes to Sulphate Corrosion Using Model Mortars D. Kocáb, I. Terzijski, J. Strnad and P. Louda	44
Determining the Freeze-Thaw Resistance of Concrete Incorporated in an Existing Structure D. Kocáb, P. Žítt and S. Hüblová	51
Integrated Anchorage of Thin Facade Panels Made of Textile Reinforced Concrete J. Řepka, T. Vlach, D. Mariaková, Z. Jirkalová and P. Hájek	57
Compressive Strength of Various Types of Concrete Exposed to Elevated Temperature K. Horníková and M. Foglar	62
Resistance of Concrete with Surface Treatment against Chemical Deicing Agents R. Chylík, T. Trtík, J. Fládr and L. Musil	68
Fracture Parameters of Alkali-Activated Aluminosilicate Composites with Ceramic Precursor H. Šimonová, I. Kumpová, I. Rozsypalová, P. Bayer, P. Frantík, P. Rovnaníková and Z. Keršner	73
GFRP Reinforcement Behaviour under Multi-Axial Stress - Experimental Study V. Kostiha, F. Gingle, O. Januš, I. Švaříčková and P. Štěpánek	80
The Effect of Eccentricity of Concrete Specimen on Measured Value of Modulus of Elasticity R. Chylík, T. Trtík, J. Fládr and J. Vašková	87
Verification of Durability Properties of Alkali-Activated Materials Based on Blast Furnace Slag with Fly Ash L. Procházka and J. Boháčová	93
Measurement of Early-Age Strength of Concrete J. Tichý, P. Kasal, V. Lorenc, P. Cikrle and D. Kocáb	98
The Use of Maturity Method for Estimating <i>In Situ</i> Compressive Strength of Concrete P. Kasal, V. Lorenc and W. Wenighofer	103
Pervious Concrete with Dense and Lightweight Aggregate R. Hela and M. Hubertová	108
Influence of “MC-Bauchemie” Additions on the Fine-Grained Concrete Properties E.S. Gerasimova and E. Gumirova	114

Application of Modified Peat Aggregate for Lightweight Concrete F.L. Kapustin and V.A. Belyakov	120
Concrete Recycling as a Source of Polyfractional Mineral Raw Materials I.K. Domanskaya, F.L. Kapustin and R. Hela	126
Assessment of the Influence of Curing Laquers on the Durability on Concrete Products A. Hubáček	132
Experimental Investigation of Bond between GFRP Reinforcement and Concrete I. Holly	140

Chapter 2: Testing, Modelling and Designing of Concrete Structural Elements

Numerical Analysis of Temperature Distribution throughout a Concrete Slab during Fire Using a Web-Based Solver J. Holan and R. Štefan	149
Verification and Validation of Corbels Strengthened by Unbonded Tendons and Bars L. Bobek, L. Juříček, M. Číhal, J. Kabeláč and M. Konečný	157
Design of Concrete Hinges According to Leonhard P. Havlíček and J. Šoltész	163
Basis for Design of Bearings in New the Generation of Eurocodes J. Marková, M. Holický, K. Jung and M. Sýkora	169
Selected Approaches to Numerical Modeling and Analysis of Fiber Reinforced Concrete Beam O. Sucharda	174
Experimental and Numerical Evaluation of UHPFRC Slabs Subjected to Contact and Close-In Explosion O. Janota and M. Foglar	180
Safety of the Models for Assessment of Punching Resistance of Flat Slabs with Openings Adjacent to the Columns E. Kormosova, J. Halvonik and L. Majtánová	186
Safety Formats for Non-Linear Analysis: Are the Current Structural Codes Applicable for Practice? V.V. Tur, S.S. Derechennik and A.V. Tur	193
Large-Size Jointless Concrete Slab-on-Grade with Combined Prestressing A.V. Tur	201
Effect of Fire Model Parameter Variability on Determination of Fire Resistance of Concrete Structural Members M. Benýšek, R. Štefan and J. Procházka	208
The Analysis of Shear Forces Flow around the Supports of Flat Slabs S. Šarvaicová and V. Borzovič	216
Safety of Eurocode Model for Prediction of Shear Strength of Bridge Deck Slabs A. Vidaković and J. Halvonik	222
Reliability of Slender Reinforced Concrete Columns in Second Generation of Eurocodes E. Fillo, V. Benko and J. Dobrý	228
Testing of the Prefabricated Reinforced Concrete Pillars O. Šimek, M. Zich, M. Janda, P. Daněk and R. Nečas	234
Approaches to Determine Material Model of Fibre Reinforced Concrete M. Tipka and J. Vašková	240
Reconstruction Effectiveness of Locally Supported Flat Slabs to Increase in Shear Resistance M. Bolešová, K. Gajdošová and M. Čuhák	246
Modelling and Manufacturing of Complex Architectural Elements of Concrete Using Industrial Robots in Formwork Fabrication V. Usmanov, D. Fakhri, M. Jogl and K. Kolář	252
3D Printing of Concrete Structures Modelled by FEM M. Vaitová, L. Jendele and J. Červenka	261
Service Life of Concrete Structures M. Holický and J. Kolísko	267

Prestressing Steel Ropes - Corrosion Impact on its Properties

J. Kolísko, V. Vacek, P. Pokorný and M. Kostecká

272

Operation Modal Analysis of Pedestrian Bridge in Kromeriz

K. Bezručová, R. Nečas and J. Koláček

281
