

# Table of Contents

## Preface

## Chapter 1: Concrete and Building Composites

<b>Pilot Fracture Tests of Special Fine-Grained Composites</b>	
I. Rozsypalová, E. Bystrínska, O. Koutný, P. Daněk, P. Frantík and Z. Keršner	3
<b>Methodology of Controlled Crack Introduction in Cementitious Materials</b>	
H. Schreiberová, J. Fládr, R. Chylík, T. Trtík and A. Kohoutková	9
<b>Influence of the Method of Production of Test Specimens on the Result of the Frost Resistance Test of Concrete</b>	
D. Kocáb, P. Daněk, P. Žitt and T. Vymazal	17
<b>Determination of a Suitable Moment for Formwork Removal from a Concrete Structure Using Rebound Hammer Test Methods</b>	
P. Misák, D. Kocáb and P. Cíkrle	23
<b>The Analysis of the Intensity and Vibration Time on the Mechanical Properties of Hardened Concrete</b>	
T. Trtík, R. Chylík, J. Fládr and J. Vašková	28
<b>Concrete in the Environment of Agricultural Buildings</b>	
A. Hubáček and R. Hela	35
<b>Effects of Concrete Compositions on the Elastic Modulus</b>	
R. Hela, L. Bodnárová and K. Křížová	41
<b>Comparison of Methods for Crack Development State for Steel Fibre Reinforced Concrete</b>	
L. Musil, M. Tipka, H. Hanzlová and J. Vodička	48
<b>Fracture Resistance of AAAS Composites with Ceramic Precursor</b>	
I. Rozsypalová, P. Daněk, P. Rovnaníková and Z. Keršner	54
<b>Strength of AAAS Composites with Ceramic Precursor over Time</b>	
P. Frantík, P. Rovnaníková and Z. Keršner	60
<b>Identification of AAAS Composites Mechanical Fracture Parameters</b>	
M. Lipowczan, D. Lehký, I. Rozsypalová, P. Daněk, P. Rovnaníková and Z. Keršner	66
<b>Properties of Spanish Broom Fiber Reinforced Concrete</b>	
S. Juradin, I. Boko, I. Netinger Grubeša, D. Jozić, S. Mrakovčić and I. Vukojević	72
<b>Use of Ash after Denitrification as an Additive to Concrete Based on Alcali-Activated Slag</b>	
L. Procházka and J. Boháčová	78

## Chapter 2: Research and Designing of Structural Concrete Members

<b>Behavior of the Experimental Flat Slab Specimen Supported by an Elongated Column</b>	
E. Kormosova and J. Halvoník	87
<b>The Influence of Various Types of Reinforcement of the Concrete Pillars of Precast Walls with an Opening</b>	
O. Šimek, M. Zich, M. Janda and R. Nečas	94
<b>Experimental and Numerical Study of Reinforcement Strains in RC Ties</b>	
R. Jakubovskis, D. Valiuškas and G. Kaklauskas	100
<b>Precast Dapped End - Nonlinear Analysis</b>	
L. Juříček, M. Zich, M. Hasa, P. Komárková and L. Bobek	106
<b>Experimental Analysis of Flat Slab Locally Supported by an Elongated Column</b>	
S. Sarvaicová and V. Borzovič	111
<b>The Effects of Floor Structures on the Masonry Walls of Multistorey Building</b>	
L. Vejvara	117
<b>Analysis of Zone Fire Models and their Application in Structural Fire Design</b>	
N. Svobodová, M. Benýšek and R. Štefan	127
<b>Effect of Membrane Forces on Punching Shear Capacity of Flat Slabs</b>	
A. Vidaković, L. Majtánová and J. Halvoník	136

<b>Experimental Verification of Slender Reinforced Concrete Columns Design</b>	142
J. Dobrý, V. Benko, M. Kováčik and H. Wolfger	
<b>Effect of Struts and Stirrups Inclinations on Shear Resistance</b>	151
E. Fillo and J. Halvoník	
<b>Production of the Test Timber-UHPC Composite Bridge</b>	157
M. Holý, D. Čítek, P. Tej and L. Vráblík	
<b>Fatigue Behaviour of GFRP Reinforced Beams</b>	163
O. Januš, F. Girgle, V. Kostiha, J. Prokeš and P. Štěpánek	
<b>Verification of Composite Steel and Concrete Bed Behaviour for Machine Tools</b>	170
V. Kostiha, F. Girgle, I. Švaříčková, P. Daněk and P. Štěpánek	
<b>Implementation and Testing of Short Span Footbridge System Made of UHPC</b>	176
J. Marek, J. Prchal, J. Kolisko, D. Čítek, P. Tej, M. Holý, M. Kalný and J. Kománek	
<b>Strengthening of Concrete Structures Using UHPC - Experimental Verification</b>	185
J.L. Vítěk, L. Boháček, R. Coufal and D. Čítek	
<b>Evaluation of Behaviour of Plan Curved Structure Supported by Arch</b>	193
J. Trenz, K. Zlatuška, R. Nečas and J. Stráský	

### **Chapter 3: Methods of Defectoscopy and Inspection of Concrete Members**

<b>Using the Ultrasonic Method for the Defectoscopy of Failures in Reinforced Concrete Columns</b>	203
K. Hrabová, S. Hübllová, P. Cikrle and T. Vymazal	
<b>Construction-Technical Survey of the Interspace of an Industrial Chimney</b>	209
M. Pešata, L. Procházka, V. Bilek and J. Boháčová	
<b>Assessment of Cores Using Electroacoustic Methods</b>	214
S. Hübllová, K. Hrabová, J. Lánik and P. Cikrle
