

Table of Contents

Preface

Chapter 1: Additive Manufacturing

Influence of Supertransus Heat Treatment on the Microstructure and Compressive Performance of Additively Manufactured Ti6Al4V (ELI) M. Sukre and A. Meena	3
On Porosity and Flexural Strength of FDM Parts Printed using Short Carbon Fiber Reinforced Polyamide 6 Filament S. Gangwar and S. Ahmed	11
Additively Manufactured Hybrid and Hierarchical Auxetic Structures: A Review S. Kumar, H.D. Sondagar, V. Naranje and S. Teraiya	21

Chapter 2: Advanced Manufacturing and Industrial Development

Real-Time Monitoring of Shop Floor Machines with Open Sources Technologies: A Case Study A. Kumar and V. Vasu	31
Innovations in Raw Materials Preparations – Micro Pelletizing D. Prasad, R. Kumari, C.A. Arunkumar, B.S. Bandyopadhyay and S. Sinha	39
