

## Table of Contents

### Preface

### Chapter 1: Additive Manufacturing

<b>Influence of Supertransus Heat Treatment on the Microstructure and Compressive Performance of Additively Manufactured Ti6Al4V (ELI)</b> M. Sukre and A. Meena	3
<b>On Porosity and Flexural Strength of FDM Parts Printed using Short Carbon Fiber Reinforced Polyamide 6 Filament</b> S. Gangwar and S. Ahmed	11
<b>Additively Manufactured Hybrid and Hierarchical Auxetic Structures: A Review</b> S. Kumar, H.D. Sondagar, V. Naranje and S. Teraiya	21

### Chapter 2: Advanced Manufacturing and Industrial Development

<b>Real-Time Monitoring of Shop Floor Machines with Open Sources Technologies: A Case Study</b> A. Kumar and V. Vasu	31
<b>Innovations in Raw Materials Preparations – Micro Pelletizing</b> D. Prasad, R. Kumari, C.A. Arunkumar, B.S. Bandyopadhyay and S. Sinha	39
