

Table of Contents

Preface

Chapter 1: Cutting Fluids

Study on Evaluation of Cutting Fluid Using End Face Cutting in Lathe Machining Y. Obata and T. Sawa	3
In-Line Concentration Monitoring of Water-Soluble Cutting Fluids Using an Automatic Brix Meter K. Yamaguchi, T. Gonda and S. Sakamoto	11

Chapter 2: Mechatronics and Automation

Application of Artificial Neural Network to Control Accuracy Dimension of 3D Resin DLP Products T.H. Bui, V.V. Ma, C.Q. Han, V.V. Le and H.N. Huynh	21
A Study on the Simulation and the Experimentation to Improve the Energy Efficiency of Servo-Controlled Hydraulic System D.H. Vu, T.H. Ho, K.D. Le and D.H. Phan	31
Lighting Simulation for Visual Inspection System Using Patterned Area Illumination T. Sugino, S. Yokoyama and T. Matsuo	41

Chapter 3: Modeling and Computational Research in Mechanical Engineering

Determination of Geometrical Parameters to Balance the Pressure Drop of Channels on a Microfluidic Chip V.D. Keo, X.T. Hiep, Q.N. Banh, T.A. Son and D.H. Lynh	53
Swing-up and Stabilizing Control of Inverted Pendulum with Restricted Travel Width and Cart Speed D. Kinoshita, S. Nakayama and I. Matsumoto	63
Empowering Die Selection in V-Bending: Insights from Decision Tree Algorithms D.H. Lynh and T.H. Nam	73
A Research on the Simulation of Multi-Stage Single Point Incremental Forming (MSPIF) Process on Stainless Steel Sheet SUS304 by Abacus Software T.L. Tran, K.D. Le, M.T. Pham, T.N. Nguyen and H.A.K. Dong	83
Effects of Groove Depth and Sheet Thickness on V-Bending Process Predicted by Finite Element Analysis A.C. Le, K. Le, T.H. Ho, T.A. Son, Q.N. Banh and M.T. Ho	99
