

# Table of Contents

## Preface

## Chapter 1: Nanomaterials for Applications in Sensor Devices

<b>Direct Detection of Green-Synthesized Fe<sub>3</sub>O<sub>4</sub> Magnetic Nanotag Using Double-Chip Configuration of Commercial Giant Magnetoresistance Sensor</b> H. Ardiyanti, N. Mabarroh, N.A. Wibowo, N.I. Istiqomah, M.A.U. Absor and E. Suharyadi	3
<b>Detection of Green-Synthesized Fe<sub>3</sub>O<sub>4</sub>/ Chitosan Using Spin Valve GMR Sensor with Wheatstone Bridge Circuit</b> S. Garcia, N. Mabarroh, R. Cuana, H. Ardiyanti, N.I. Istiqomah and E. Suharyadi	9
<b>Enhanced Magnetic Properties of Gd-Doped ZnO by Varying the Gd Concentration via Co-Sputtering Technique</b> N.A. Raship, S.N.M. Tawil and N. Nayan	15
<b>Green Synthesis of Magnetite Nanoparticles Using <i>Moringa oleifera</i> and their Electro-Optic Surface Plasmon Resonance Properties</b> S. Wahyuni, M. Riswan, R.M. Tumbelaka, R. Cuana, N.I. Istiqomah and E. Suharyadi	21

## Chapter 2: Preparation and Properties of Advanced Composite Materials

<b>Evaluation of Marine Atmospheric Environmental Adaptability of 3238A/CCF300 Composite Material</b> J.K. Wang, J.M. Wang and M. Liu	29
<b>Enhanced the Bagasse Corrugated Fiber Composite Roofing Properties with Adhesive Substances</b> P. Bharuedha, S. Prayoon and B. Kittisak	35
<b>Flexural Strength of Kenaf Fibers/Epoxy Bio-Composites: Content of Kenaf Fiber, Curing Times and Curing Temperatures</b> H. Suherman, I. Vatra, T.A. Suherman and I. Irmayani	41
<b>Comparative Examination of Cellulose Nanosphere from Corn Husk and Rice Straw</b> R.C. Tilwani, P.A.N. de Yro and H. Nakano	47

## Chapter 3: Additive Manufacturing

<b>Mechanical Properties of FDM Fabricated PLA Parts: Effect of 3D Printing Parameter Optimization Using Taguchi Method</b> C.E. Alviar and B.A. Basilia	57
<b>Evaluating the Accuracy of Finite Element Analysis in Predicting Mechanical Properties of Additively Manufactured Parts</b> C. Promae, S. Das and A. Nassehi	65
<b>Development of 3D Printing Filaments from Recycled PLA Reinforced with Nanoclay</b> B.A. Basilia, J.N. Concepcion and J.J. Prila	73
<b>3D-Printed Polymer Spare Parts for Various Applications</b> J.R.C. Dizon	79
<b>Towards Smart Additive Manufacturing: Cost and Component Complexity</b> F. Tarlochan and S. Alsendibad	85
<b>Effect of Nano-Alumina (Al<sub>2</sub>O<sub>3</sub>) Loading on the Thermo-Mechanical Properties of Poly(Lactic Acid) for Fused Deposition Modeling 3D Printing Applications</b> M.S. Tolentino, B.A. Basilia and P.A.N. de Yro	91
<b>Fatigue Resistance Assessment of WAAM Carbon Steel</b> M. Hietala, T. Rautio, M. Jaskari, M. Keskitalo and A. Järvenpää	99

## Chapter 4: Friction Welding

- Studying Effects of Heat Treatment on Friction Stir Welding of Al 7075**  
D.M. Nhat, P.Q. Trung and B.D. Khanh 109
- A Study on Optimizing the Parameters of the Heat Treatment Process on Rotary Friction Welding of Aluminum Alloy A6061**  
P.B.H. Nam, P.Q. Trung and B.D. Khanh 117

## Chapter 5: Materials for Water and Wastewater Treatment

- Graphitic Carbon Nitride (g-C<sub>3</sub>N<sub>4</sub>) Microrods and Nanosheets Photocatalysts Immobilized on Water Hyacinth Cellulose Sponge for Photodegradation**  
B. Pattanasiri and S. Sangjan 127
- Effects of Cupric Ion Adsorption onto the Modified Pineapple Pulp as a Biochar Adsorbent**  
P. Charnkeitkong and S. Sripiboon 137
- Removal of Copper(Cu) from Wastewater Using Modified Recycle Carbon Black (RCB) Waste Tyre**  
M.A.I. Nordin, N.A.H. Ab Aziz, U.F. Md Ali, A.A. Ahmad and M.I.H.M. Dzahir 143
- Effects of Halloysite Nanotube (HNT) on the Cd<sup>2+</sup> Adsorption Capacity of Cellulose Acetate (CA) Thin Film Membranes**  
M.J. Llana, K.J.J.L. Tabucan, J.A.M.C. Cosico, P.E.C. Maglalang and J.C. Millare 149
- Fabrication of Polysulfone - Zeolite Nanocomposite Membrane for Water and Wastewater Treatment Applications**  
J.C. Millare, J.C.T. Enriquez, L.K.M. Domingo and V.U. Lagura 157
- Structural and Magnetic Behavior of MFe<sub>2</sub>O<sub>4</sub> Nanopowders for Water Treatment**  
G. Sugurbekova, E. Sugurbekov, G. Demeuova, A. Gabdullina and R. Kudaibergenova 163
