Preface

Chapter 1: Sensor Systems for Monitoring of Structures

An Inkjet-Printed Carbon Nanotube Strain Distribution Sensor for Quasi Real-Time Strain Monitoring of Lightweight Design Materials Y.J. Zhao, C. Beisteiner, S. Gschossmann and M. Schagerl	3
FBG-Galfenol Integrated Magnetic Field Sensors for Harsh Environments V. Apicella, M.A. Caponero, C. Cianfarani, D. Davino, A. Polimadei and C. Visone	9
New Directions of Health Monitoring for Building Structures A. Nishitani, P. Xiang, S. Marutani, T. Hatada and R. Katamura	15
A Magnetostrictive Energy Harvesting System for Bridge Structural Health Monitoring C.S. Clemente, D. Davino, G. Maddaloni, M.R. Pecce and C. Visone	20
Estimating Cable Forces in a Large Cable-Stayed Bridge S. Casciati and L. Elia	26
Sparse Solution Techniques in Load and Damage Monitoring Systems C.P. Fritzen and D. Ginsberg	35
Wind Turbine Fault Detection through Principal Component Analysis and Statistical Hypothesis Testing F. Pozo and Y. Vidal	45
Data Evaluation in Smart Sensor Networks Using Inverse Methods and Artificial Intelligence (AI): Towards Real-Time Capability and Enhanced Flexibility S. Bosse, A. Lechleiter and D. Lehmhus	55
Integrated Sensing, Monitoring and Healing of Composite Systems O.S. Kuponu, V. Kadiramanathan, B. Bhattacharya and S.A. Pope	62

Chapter 2: Research, Design and Modern Technologies in Robotics and Mechatronics

Model Order Reduction in Nonlinear Systems L. Faravelli and F. Casciati	71
Shape Memory Alloys Wires: From Small to Medium Diameter V. Torra, S. Casciati and M. Vece	79
Controllable Truss-Frame Nodes in Semi-Active Damping of Vibrations B. Poplawski, C. Graczykowski and Ł. Jankowski	89
Robotic Fish Development for the Next Generation Underwater Vehicle I. Yamamoto	95
UAV-Deployed Impulsive Source Localization with Sensor Network W. Greenwood, H. Zhou, J.P. Lynch and D. Zekkos	104
Shape Memory Alloy Morphing Airfoil Sections D. Saravanos, T. Machairas, A. Solomou and A. Karakalas	112
Vision-Based Fuzzy Controller for Quadrotor Tracking a Ground Target X.C. Chen, Z.Q. Cao, Y.Q. Yang and C. Zhou	121
Yaw Control of a Smart Morphing Tailless Aircraft Concept L.L. Gamble and D.J. Inman	127
Adaptive Self-Protection against Shock and Vibration Ł. Jankowski, C. Graczykowski, P. Pawłowski, G. Mikułowski, M. Ostrowski, B. Poplawski, R. Faraj, G. Suwała and J. Holnicki-Szulc	133

Chapter 3: Technologies for Satellite Positioning System for Emergency Management

SPARTACUS: Enabling Space Technologies in Security Research C. Fuggini and I. Tesfai	145
Positioning Units for Critical Asset Tracking and Emergency Management L. Vittuari, B. Pavkovic, A. Guinamard, F. Casciati, M. Zanzi, A. Ghetti, L. Berbakov and M. Vece	152
A Satellite and Inertial Navigation Solution in Crises Management Operation for First Responder Application A. Ghetti, L. Vittuari and M. Zanzi	158
A Satellite and Inertial Navigation Solution in Crises Management Operation for Transport and Relief Goods Application F. Casciati, S. Casciati, L. Faravelli and M. Vece	168
